

What Our Families Are Saying

Bright Horizons at Dublin

The Wellman Family

We cannot say enough great things about Bright Horizons in Dublin! Before the Covid-19 pandemic hit, we were a Bright Horizons family for almost three years. We had two children that went from the toddler room through the K-Prep program. During that time, we could not have been happier with the academic, STEM education, and interpersonal skills that both of our children developed. Even as one of the youngest in his class, our older son was more than ready for Kindergarten and is now a thriving 2nd grader. Due to the Covid-19 pandemic, our younger son was not able to complete the K-Prep program but we are more than grateful for the time he spent at Bright Horizons with the teachers that he loved, and the friendships that have continued on to this day. We would recommend Bright Horizons to any family that is looking for a childcare center that truly cares about their child's well-being, and their early childhood development/education. In fact, we have recommended Bright Horizons to more than one of our friends and we would not have done so if Bright Horizons was anything less than a 100% positive experience for us!
