

## Adjusted traffic situation

### Friday 5 up to and including Monday 8 June: Beneluxbaan towards Amsterdam and Sportlaan- East closed

During this weekend, we will connect the eastern side of the new Beneluxbaan to the current one, and we will make a start with the eastern connection to the roundabout. Beneluxbaan towards Amsterdam, the intersection and Sportlaan-East (up to Alpen Rondweg) will be closed. Traffic from Uithoorn towards Amsterdam will be diverted via Gondel and Groenelaan. Local traffic will be diverted in the immediate area. Pedestrians and cyclists (holding their bikes) can use the intersection. For cyclists, the diversion via Marne will still apply. After this weekend ongoing traffic towards Amsterdam will be using the lowered concrete construction for the first time.

### Monday 8 June up to and including Friday 3 July: various closures at Sportlaan-East

During these four weeks, we will be working on the eastern side of the roundabout. For this, we will have to close the ground-level lanes of Beneluxbaan, as well as Sportlaan-East (up to Alpen Rondweg) and the intersection. Local traffic will be diverted in the immediate area. Ongoing traffic towards Amsterdam will use the lowered concrete construction. Yet again, pedestrians and cyclists (holding their bikes) can use the intersection, and the diversion for cyclists via Marne will still apply.

### Friday 3 up to and including Monday 6 July: Beneluxbaan towards Uithoorn and Sportlaan- West closed

During this weekend, we will connect the western side of the new Beneluxbaan to the current one, and we will make a start with the western connection to the roundabout. Beneluxbaan towards Uithoorn, the intersection and Sportlaan-West (up to Dr. Alphons Ariënsstraat) will be closed. Traffic from Amsterdam towards Uithoorn and local traffic will be diverted in the immediate area. Pedestrians and cyclists (holding their bikes) can use the intersection. For cyclists, the diversion via Marne will still apply.

### Monday 6 up to and including Friday 31 July: various closures at Sportlaan-West

During these four weeks, we will be working on the western side of the roundabout. For this, we will have to close the ground-level lanes of Beneluxbaan, as well as Sportlaan-West (up to Dr. Alphons Ariënsstraat) and the intersection. Local traffic will be diverted in the immediate area. Ongoing traffic towards Uithoorn will use the lowered concrete construction for the first time. Pedestrians and cyclists (holding their bikes) can use the intersection, and once more the diversion for cyclists via Marne will apply. The cycle lane between the International School and Beneluxbaan will be closed. Cyclists will be diverted via Peter Postbaan. After this period, we will reconstruct the cycle lanes alongside Beneluxbaan. This will be ready in August. Public transport users will be able to use the new Sportlaan stop from late 2020.
