Hello Green Room Families,

We hope you enjoyed spending some quality time with your loved ones over winter break! It's the start of a new year and we have a fun filled month ahead of us exploring different animal habitats.

During the first week, we will be learning about Grasslands. We will learn about elephants, giraffes, zebras, cheetahs, and kangaroos. The kiddos will decorate zebra cutouts using black paint, marbles, and shaving cream.

During the second week of January, we will be discovering the different animals that live in the Wetlands. The kiddos will use a flyswatter and paint to create different patterned frogs. We will also learn more about river otters, ducks, and snapping turtles.

The third week will be filled with ocean animals, like dolphins, sharks, sea turtles, and clown fish. The kiddos will get a chance to make baby shark hats by decorating different colored party hats.

We will end the month exploring the desert and learning about camels, rattlesnakes, coyotes, scorpions, and chameleons. This month will be packed with fun art projects like macaroni camels, coyote rainbow sunset paintings, and more!

WITH LOVE,
MS. NA AND MS. ALGRAE
