

1966 Sunbeam Tiger

This is a very unique vehicle and is in excellent shape and condition. Although not in show car condition it would be a fun car just as a driver. The engine and drive train are in very good condition. We were not able to perform a complete road test, per the seller. It was driven around a small parking lot and performed well. The only issue noted on the test drive is the hydraulic clutch slave and master cylinders may need rebuilding as the owner wasn't always able to completely disengage the clutch. The master was low and slightly corroded. The engine performed very smoothly and has good power as did the transmission other than some grinding from the clutch not always disengaging. I noted no abnormal rattles or vibrations during the parking lot test drive.

The body and chassis appear in very good condition I noted surface rust on some suspension components. Not all the door gaps were even and could use some adjustments. Noted a small amount of filler in the left quarter panel just behind the rear wheel and some in both rocker panel areas. Owner stated he had the rockers replaced when he had the car repainted about ten years ago. The hood has a functional mid 60's Thunderbird scoop mounted on it that helps with engine breathing and also cooling. The owner does have another original untouched factory hood that goes with the car. He also has several boxes of additional and spare parts, manuals, memorabilia and other items that also will be included in the sale.

The convertible top is in good condition but needs to be cleaned and allowed to breath as it has been stored in the well for a long period. The top boot and tonneau cover are also in good condition. The seats appear original with only a couple minor rips in the drivers seat. The owner stated he installed an electric fuel pump and electronic ignition for better starting and drivability.

Please see below for pictures and more info.

Vehicle Info	
Year - 1966	
Make - Sunbeam	
Model - Tiger	
Mileage - 41016	
Transmission - Manual	
VIN Number - B382000083	
Stock Number - NA	
Interior - Vinyl	
Interior Color - Black	
Body Color - White	
Engine - 8 Cylinder	
Drive Type - Rear Wheel Drive	
Fuel Type - Gas	
Engine Number - 4425-F21KA	

Exterior	
Wiper Blades	✗
The wipers are worn and should be replaced.	
Body Alignment	✗
General misalignment to body panels, see pictures.	
Scratches	✗
There are minor misc scratches around the vehicle. Most too small to see in photos.

British Car Field Day-Sussex Wisconsin

This event is held every year on Father's Day in the village park. The show field resembles a shallow sloped bowl with a pond at the bottom. The sun is always in the sky in designated areas. Food is provided by the local by scouts for sale to anyone interested. A number of marque's are represented each year.

There was plenty of conversation and relaxing for the day. It was great to see so many of our members and friends. For some of us, it is the only time we see each other and the show is a time to reflect on last year's events and keep up to date on what is happening in each of our lives. After all, the show is over as we say goodbye to the day.
