# July 2019

## Sizzling Hot Summer

Welcome back Aqua Room families! We hope you had an enjoyable and relaxing summer break and 4th of July! We have a lot of fun activities planned ahead including water days to cool us off during these warm summer days in July! Don't forget to pack extra clothes and water bottles for your children please!

Our first week back, we will be learning everything about the beach! Students will practice counting with seashells and count the correct amount to match the corresponding number. We will also take part in a beach bucket digraph sort and put words into the matching bucket. During craft time, kiddos will design their very own flip flops with construction paper and pipe cleaners!

Week two will be all about picnics and delicious summer treats! Children will construct ants on a picnic blanket and drawing their favorite summer/picnic treats on a paper plate. They will also decorate their own ice cream cone out of a cupcake liner, glitter, and draw a cherry on top.

On the third week, we will be learning about pirates. We will be talking and writing about activities that pirates do and finding treasure. In another activity we will use kid friendly hammers and chisels to chip away at ice until we reach the treasure frozen inside!

The last week of July will be all about oceans! We will discuss the many different creatures that live under the sea and will use a variety of art mediums to create blue whales, crabs, sharks and sea-horses! We will also be writing sentences about the different animals that we can find in the ocean.

As a reminder we will be having water days July 12th & 22nd! Please bring your child in a bathing suit ready for a fun filled water day! Also bring a towel, extra change of clothing and apply sunscreen before school! Don't forget to label belongings.
