

SUCCESSFULLY FINDING GOLD IN A WORLD OF SCARCITY

SEABRIDGE GOLD

Seabridge Gold's reserve and resource base of gold, copper and silver is one of the world's largest. Our projects are located in Canada and the United States. Our objective is to grow resource and reserve ownership per share. Our risk-reducing strategy: acquire North American deposits; expand them through exploration; move them to reserves through engineering; secure environmental approvals and sell or joint venture them to established producers for mine construction and operation. Current proven and probable reserves at our 100%-owned KSM project in northwestern British Columbia exceed 47 million ounces of gold and 7 billion pounds of copper. At our 100%-owned Courageous Lake project in Canada's Northwest Territories, measured and indicated gold resources total 11.0 million ounces (145 million tonnes at 2.36 gpt gold). Seabridge also holds a 100% interest in the Iskut project located in northwestern British Columbia, the 3 Aces project located in the Yukon and the Snowstorm project located in Nevada.

RUDI P. FRONK Chair and CEO

Mr. Fronk co-founded Seabridge Gold in 1999 and has served as the Company's CEO since that time. Mr. Fronk is a graduate of Columbia University from which he holds a Bachelor of Science in Mining Engineering and a Master of Science in Mineral Economics.
