May Flowers

April was a busy month! We learned about different authors and nursery rhymes. We also celebrated Earth Day and learned about taking care of our wonderful planet.

This month it will be even busier! We will start our month off by celebrating Mother's Day and talking about family. Be on the lookout, your little ones will be making a special gift using their handprints. We will also be talking about families and making a friendship tree.

For our second week, we will learn about gardens. We will plant our very own lima beans. We will place the lima bean in a plastic bag with a wet paper towel. The Kiddos will also do a science experiment to learn how a leaf can breathe when it's placed in water. We will also get to learn about the different parts of a flower and even paint using real flowers.

For our third week, we will learn about BUGS. We will learn about bumble bees, butterflies, lady bugs, and spiders. We will be looking at bug fossils using a magnifying glass. For literacy we will introduce rhyming and examples of words that rhyme. In small groups the kiddos will try to come up with words that rhyme with bee. Be on the lookout we will have real CATERPILLERS in Yellow Room!

Our fourth week, we will learn about the grocery store and farmer's market. We will explore different types of fruits and vegetables. We will also have the opportunity to explore fruit and vegetable seeds using a magnifying glass. In small groups we will practice making patterns using different cut outs of apples. Then for art we will be making art using citrus fruit halves as fruit stamps.

Letter of the Week

4/29-5/3: Ee

5/6-5/10: Ff

5/13-5/17: Gg

5/20/24: Hh

5/27-5/31: Ii

Star of the Week

4/29-5/3: June

5/6-5/10: Laurel

5/13-5/17: Luca

5/20-5/24: Jackson

5/27-5/31: Edward

Happy Birthday

5/8: Jack B

5/12: Jelina
