JOHNSON COUNTY
PUBLIC LIBRARY

The Core Team Commitment

With excitement and pride, we present the Johnson County Public Library Strategic Plan for 2014-2018.

As we, the Core Team, invested time over the past **14 months** developing this plan, it was refreshing to witness the **community enthusiasm** and support for the Library.

Starting with four public forums in 2012, we have been listening to and analyzing **input** from our **leaders** across the county as well as from **residents** in communities served by the Johnson County Public Library.

Guided by the **Library Board's eight priorities**, we have studied our county's demographics. We have examined **library trends** at the local, state, and national levels and reviewed the Indiana **state mandates** and **standards** for libraries.

JOHNSON COUNTY
PUBLIC LIBRARY

The Core Team Commitment

At the heart of our discovery was the wealth of knowledge gleaned from the **one-on-one interviews** that library staff conducted with nearly **200 stakeholders** in education, business, government, cultural and social service organizations. Several of them, not originally familiar with the many services offered by JCPL, are now open to **partnerships** with the library as we go forward.

Based on the public input and our research, we have formed **10 strategic directions** supported by **36 initiatives** formatted as projects with measureable outcomes. These projects were detailed by staff in **Feasibility Study Teams** and then critiqued by the full staff and by **community focus groups**.

This plan is the culmination of what we learned as we have listened to the voice of the **public** and the wisdom of **library professionals**.

JOHNSON COUNTY
PUBLIC LIBRARY

The Core Team Commitment

Throughout the process, we, the Core Team, have shared our discoveries and the resulting work with the JCPL Library Board in a series of **special board sessions** and via the Library's designated strategic planning website, **JCPLNEXTCHAPTER.com**.

Board members, staff and the public have followed the entire process through this invaluable digital tool.

We believe that this plan is in the **best interests of the public** and that the proposed initiatives can be accomplished within the **fiscal realities** of JCPL.

A 2013 study by the Pew Internet & American Life Project found that **91 percent** of Americans age 16 and older feel that **public libraries are important to their communities**. Throughout the planning process, we have witnessed this same enthusiasm and look forward to continually enhancing the library's role in the public life of Johnson County.

Respectfully submitted,

The JCPL Strategic Planning Core Team, December 17, 2013
