

GUIDE FOR PARTNERS

The partner program of the **New Generation Airships project** is a unique opportunity to enter the world of investments safely. The main point of the program is to tell people about the great opportunities they don't know about yet.

SELL THE PRODUCT TO YOURSELF

Explore the topic in depth, feel that you are passionate about it.

GENERATE TRAFFIC

Use any kind of advertising, any kind of traffic generation that is available to you.

Post videos on your channels, add links. Create chats, send links to people in your contact list. Add new people every day. Invite people to just follow it.

Example:

You send the link to 100 people → 50 of them follow it → 25 attend a webinar → 5 invest → 3 become partners.

Increase the number of attempts.
Improve the quality.

INVITE AND TRAIN NEW PARTNERS

Partners achieve unlimited passive income thanks to a developed partner structure!

1

MAKE A LIST OF CONTACTS

These are your friends, your family, your immediate circle. People you would like to share a new opportunity with. How many people are on your contact list - 30, 50, 100? These are your first customers.

3

USE THE TOOLS

The [New Generation Airships](#) project has interviews, video of an airship flight, a recording of the conference with the academy members, photos from the conference, and the project statistics. Invite a person to the webinar by sending these materials.

Offer the potential customer to:

1. Register in the back office.
2. Invest. Don't forget to send your referral link to the customer! This way you will earn your referral remuneration.
3. Sign the partnership agreement. This way you will get a new partner in your structure and earn referral remuneration from the investments of the partner and his/her customers.
