

Blue Room Newsletter

The month of August will be quite a transition for Blue Room. We will have new friends joining us as well as friends who will be moving on to Yellow Room. This month's focus will be **Incredible Imaginations!** Throughout the weeks, we will be discussing The Wild West, Circus, Robots, and Dinosaurs.

To start off the month, we will discuss what we already know about the **WILD WEST!** We will read books to give children a more in-depth picture of what the Wild West is about. Children will be making their own western boots by gluing their own jewels and sticking on stickers on a piece of construction paper.

The second week will be dedicated to talking about the **CIRCUS!** Children will tell us all about their experiences if they've ever visited a circus and discuss with their friends what the experience was like. Students will be doing a super fun art activity which would be making cotton candy slime! Children will take turns adding ingredients of slime into the bowl, mixing and then playing with it.

Next, we will discuss **ROBOTS!** We will learn all about how they're made and some famous inventors. Kiddos will manipulate nuts and bolts and use them to build their own robots using their imagination.

Star of the Week & Blend of the Week

Week 8/5

Star of the Week: DALTON

Blend: Sp

Week 8/12

Star of the Week: LUCA

Blend: St

Week 8/19

Star of the Week: VALENTINO

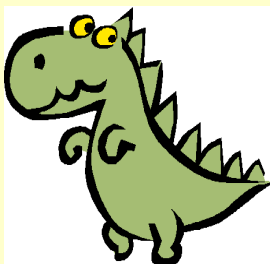

Blend: St

Week 8/26

Star of the Week: MATEO

Blend: Tx

The last week of August we will discuss **DINOSAURS!!!** We will name as many dinosaurs as we can and discuss how each and every dinosaur was uniquely different. Students will practice their number recognition by counting dinosaur eggs and identifying if they are big or small.

Upcoming Events
