I am truly impressed with what has been produced, especially given the limited information provided. The outcome is incredible, and I look forward to working with you further. What stands out even more is the speed at which you delivered this—exceptional work.

In my 28 years as a senior executive, one of my biggest frustrations has been finding people who consistently deliver work that meets my expectations. You are the first to exceed them, and for that, I sincerely thank you. Thank you again for your outstanding assistance.

Tools that bring your voice to life

We're here to make your words tell a compelling story. To bring your ideas to life and get your message across with engaging and persuasive content and copy.

For APS, that means creating tools that define what you say, and how you say it:

- A strong, consistent tone of voice that reflects the personality of your brand and supports your new strategic direction, with practical guidelines.
- Team training to embed the effective writing habits that make up that voice.
- A cheat sheet of brand messages to put that voice to work.

Here's what we do

-  Tone of voice
-  Brand messaging
-  Content
-  Copywriting and editing

We work a little differently to other creative agencies.

A collaborative team, focused solely on the words
Imagine one experienced, versatile copywriter. Now imagine four of them working together — sharing ideas, solving problems, checking each other's work.

Deep thinkers, good listeners
We know how to make words work hard, so you don't have to. We love unpacking briefs to find the substance behind the words, and you can expect a constructive conversation and intelligent questions during our briefing calls or interviews.

We're your customers' advocates
Your business goals are important. But so are your customer's needs. So we bring their perspective into the mix to help you build trust and strengthen brand integrity.

We're flexible and responsive
We get it. Priorities change, the sales team needs something tomorrow, you need to respond to a market shift. Think of us as your on-call writers, available whenever you need words.

Who do we work with?

Here are just some of the brands we've helped with tone of voice and/or training.

Macquarie Bank	• Cash Investments white paper and support articles (Hidden risks in a safe haven) • Managed accounts' articles • Hundreds of expertise hub articles for business banking including COVID adaptation stories • Perspective hero report: Adapting to change, a playbook for business leaders • Perspective event content, strategy and email campaign • "I bank with Macquarie" personal and business banking campaign including customer stories • Macquarie Foundation annual review – 2019 and 2020
Australia Post	• Delivering for Australia brand campaign including eCommerce success stories • Articles targeting small businesses, enterprise and government including sustainability and community stories • eBooks and research reports including digital inclusion
AGSM	• MBA event insight articles and thought leadership profile stories on leadership, future of work and disruption
Stamford Capital	• 2020 State of Play: Real Estate Debt Capital Markets Survey report, including data analysis, research, writing and editing

Visit our website for more [case studies](#)

How we work

We'll send you with an estimate based on your brief, outlining our understanding of the work involved. It will allow for one to two rounds of amends. As long as the scope of work doesn't change, neither will our quote – so there are no budget surprises.

You can use our briefing template, or share the information we need in a way that works for you.

Our client had put us under pressure in regards to turn around time but Ideaseed provided us with great confidence and clarity around their timeline and process. With very few changes, the brief was delivered back to us, complete, concise and looking fantastic. The pressure was off and the end project was beyond our expectations.

iseek engaged Ideaseed after going out to market for new corporate and communication collateral.

We were at the preferred stage in our procurement process when we were approached by ideaseed. Upon review, their extensive portfolio and initial discussions with Georgie and team, we changed course and chose Ideaseed as our preferred partner.

Ideaseed were an absolute pleasure to partner with. They took the time to understand our requirements and provided us with a flexible and tailored solution. They provided exceptional service and communication throughout the process and continue to support us if we have a question post project engagement.

THE DOCUBUILDER TOOLBAR

FOR WORD

The DocuBuilder toolbar.

Our custom solution to document creation.
No macros necessary.

Creating beautiful Word documents should never be hard. We take the stress out of the process by not only supplying stunning, comprehensive Word templates, but also include our Document Builder Toolbar into every one.

We can supply it both with and without macros.

The macro-enabled DocuBuilder toolbar

The macro-free DocuBuilder toolbar

The screenshot shows the DocuBuilder toolbar at the top of a Microsoft Word interface. The 'My Tab' is active, showing various icons for document structure and editing. A red box highlights the 'View Styles' icon. Below the toolbar, a text box titled 'Differences to Macro-Enabled Toolbar:' lists three points. A red arrow points from the second point to the 'Styles' panel on the right side of the Word window.

Differences to Macro-Enabled Toolbar:

- The Replace Image Tool has 3 steps (not 2)
- Standard style panel (at right)
- Simple TOC update using the TOC style existing in the document (ie no flexibility on what to show)

The 'Styles' panel on the right shows a list of styles, with 'Normal' selected. Other styles include Title, Date, Subtitle, Heading 1 through 5, Nbr Heading 1 through 5, Quote, Appendix Heading 1 and 2, and checkboxes for 'Show Preview' and 'Disable Linked Styles'.
