

# The Buerger Early Learning Center at Congregation Rodeph Shalom

## Judaic Curriculum

We are pleased to offer a blended curriculum at our center that includes both the *Bright Horizons World at Their Fingertips*® curriculum and a Judaic curriculum created by Congregation Rodeph Shalom's Director of Judaic Education, Andi Miller.

Ms. Miller also works with the Center and our teachers on the implementation of our Jewish curriculum and engages in community outreach and community building, focused on our young families to support The Buerger Early Learning Center, as well as Congregation Rodeph Shalom.

The Judaic curriculum at The Burger Early Learning Center is value based and promotes kindness, manners, respect and creativity – using music, puppetry and literature.

We pride ourselves on treating each child as an individual as we work towards helping children achieve their greatest potential.

The Buerger Early Learning Center facilitates a close and supportive community of families, teachers and clergy as we embrace Jewish traditions and values. Our wonderful community instills a love of learning from infants to kindergarten, along with good principles based on *Tikkun Olam* (repairing the world) to *Chesed* (loving kindness). This experience provides a basis for the child's future, continuing from this foundational period through to secondary school and adulthood.
