## Spring is in the Air....

Happy March

Friends! This month we will explore our passion for literacy, math and science through various "hands on" activities and fun experiments!

The first week the students will make their own alphabet book, practice their rhyming skills, and write their own story.

The second week, we will practice our math skills through painting numbers, measuring ingredients to make smoothies, and play fun math games outside!

The third week we will be talking about the weather and what happens in the sky above us. Through unique science experiments

and process art, the kiddos will learn about the weather cycle.

During our last week, the children will use their imaginations and creativity, while discovering their love for art. They will use their fingers and different materials while becoming artists.

We are looking forward to our month of discovery, as our kiddos continue to develop their academic skills.

## Star of the Week

3/4 Louis

3/11 Kayla

3/18 Anaya

3/25 Maddox

## Reminders

- Circle time starts promptly at 9am.
- Please remember to sign your child in/out daily.
- Please take home any projects found in the art folder!

- Daily sheets are located right next to the sign in sheet, don't forget to check and see how your kiddo's day was!
- Don't forget to take your kiddos bedding home to be washed so it

can be nice and clean for the following week!

- You may bring books or coloring activities for your child to have during naptime.
