

Headline: LockedBrands Pledges to Provide Donations to Invisible Disabilities® Association

Rockwall, TX, December 15, 2020: LockedBrands, makers of The Pillar, will provide a donation to the Invisible Disabilities® Association for every Pillar purchased by IDA Member on lockedbrands.com. Anyone at checkout will also have the option to include a donation with purchase.

"Many people living with invisible disabilities might use prescriptions, CBD and other medicines that help them survive what they live with every day that they need to keep accessible but safely in their homes," says Jess Stainbrook, the Executive Director with IDA. "The Pillar is the perfect lockbox option that can provide this type of security, which is why we have chosen to partner directly with Locked Brands. And we are excited that they offer to donate directly to IDA when any unit is purchased. It's a big win for all involved!"

The Invisible Disabilities® Association provides awareness that invisible illness, pain and disabilities are very real! IDA's mission is to encourage, educate and connect people and organizations touched by illness, pain and disability around the globe. They envision "a world where people living with illness, pain and disability will be Invisible No More®."

Justin Monger, LockedBrands Founder and CEO, says, "At LockedBrands we know we won't be able to solve these problems with our products alone, but hearing these stories resonates with us. We want to offer peace-of-mind to those that need it. LockedBrands believes the Pillar can be very helpful for keeping expensive or addictive medicines secure."

LockedBrands created the Pillar, a voice-activated, app-controlled, personal lockbox meant for securely storing prescription medicines and other personal valuables, in-plain sight. It is a portable device, that can be anchored with any Kensington slot compatible cable lock. Other features the Pillar offers include: Access sharing, access logging, smell-proof, air-tight, and its compatible with Ask Alexa.

For more information or to purchase a Pillar please head to: www.lockedbrands.com. To learn more about the Invisible Disabilities® Association, visit their website at www.invisibledisabilities.org.

About LockedBrands

LockedBrands®, founded in 2017, integrates mature, smart technologies with modern design to produce cutting edge personal lockbox systems. LockedBrands' flagship "Gen 1" product, The Pillar, a voice-activated, app-controlled lockbox is ideal for safeguarding valuables, including cash, keys, prescriptions meds, and personal belongings. It is available online as well as in stores in Canada, the US and Mexico. The "Gen 2" product, the Secure Med Manager, is a personal lockbox system that not only secures these medicines but also manages the dispensing of them, per the physician's prescription. With active logging and other key features, it helps the patient and healthcare team monitor and manage controlled substances in the home. The Secure Med Manager will be available in 2021.
