

What Our Families Are Saying

Bright Horizons at Dublin

The Henderson Family

. Things definitely look different during a pandemic, but we have consistently been overjoyed with the quality of care our kid gets here for the past two years. The teachers are all absolute gems and have been wonderful resources in and out of the classroom. Even without parents being able to be in the building ourselves, the teachers still take extra time to communicate daily highlights, sometimes even as we're passing in the parking lot! I feel 100% on board with the teaching philosophy here in, raising modern kids to be healthy, kind, and conscientious humans in a beautifully multicolored world.
