# AIRBNB

Airbnb exists to create a world where anyone can belong anywhere, providing healthy travel that is local, authentic, diverse, inclusive and sustainable. Airbnb uniquely leverages technology to economically empower millions of people around the world to unlock and monetize their spaces, passions and talents to become hospitality entrepreneurs. Airbnb's accommodation marketplace provides access to 6+ million unique places to stay in nearly 100,000 cities and 191 countries.

# NEWGARD

Founded by Harvey Hernandez, Newgard's highly skilled associates bring more than 50 years of combined experience in development, design, marketing and construction. Hallmarks of the Newgard approach to forward-thinking development include innovative luxury buildings in desirable, centrally located neighborhoods, pedestrian-oriented lifestyles and cutting edge amenities. Property designs reflect a commitment to relevant architectural detailing and the attitudes of residents and business users.

# THE VISION

Stated square footages are measured to the exterior boundaries of the exterior walls and the centerline of interior demising walls and in fact vary from the square footage and dimensions that would be determined by using the description and definition of the "Unit" set forth in the Declaration (which generally only includes the interior airspace between the perimeter walls and excludes all interior structural components and other common elements). This method is generally used in sales materials and is provided to allow a prospective buyer to compare the Units with units in other condominium projects that utilize the same method. For your reference, the area of the Unit, determined in accordance with these defined unit boundaries, is set forth above and is labeled as "interior". Measurements of rooms set forth on this floor plan are generally taken at the farthest points of each given room (as if the room were a perfect rectangle), without regard for any cutouts or variations. Accordingly, the area of the actual room will typically be smaller than the product obtained by multiplying the stated length and width. All dimensions are estimates which will vary with actual construction, and all floor plans, specifications, location and sizes of windows and doors, and other development plans are subject to change and will not necessarily accurately reflect the final plans and specifications for the development. All depictions of appliances, counters, soffits, floor coverings and other matters of detail, including, without limitation, items of finish and decoration, are conceptual only and are not necessarily included in each Unit.
