

What Our Families Are Saying

Bright Horizons at Dublin

The Malec Family

Our family was fortunate enough to tour the Bright Horizons in Dublin prior to COVID. The director, Rina, explained what the center was about and showed us around to the classrooms and play areas. The center was bright and happy and we instantly felt a positive vibe. The lunch menu for that week sounded delicious, too! We knew immediately that it would be the perfect place for our son. We've been part of the center for a little over a month now and we have no regrets. The staff are amazing and always so welcoming. This is the first time our 2.5-year-old son has attended any kind of daycare, so you can only imagine how skeptical and nervous we were. But our transition has been such a wonderful experience! Our son loves it and we know this because he always says "Mommy, talk about daycare." It's his way of telling us about his experiences by answering questions I ask about his days. It's such a comforting feeling knowing our son enjoys being there and we can trust that he's being well taken care of. We highly recommend this center!
