

Stone Belt

Improving Lives. Building Community.

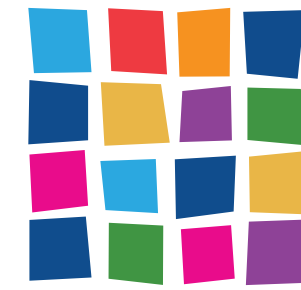

Stone Belt has been providing innovative support and education to individuals with disabilities since 1959, making it **the oldest and largest agency of its kind in south central Indiana**. Begun by nine visionary families wishing to create educational opportunities for their school-age children, Stone Belt has grown to include residential programs, employment resources, life skills and vocational training, professional art studios, and clinical services. These programs enable individuals to live self-directed lives with greater significance and meaning. Stone Belt remains at the forefront of the field, **pioneering essential changes and implementing programs that touch thousands of lives**.

Our communities are stronger when every individual experiences success. Stone Belt embodies **principles that support and empower people** to achieve their greatest potential every day.

- self-determination is essential
- learning creates empowerment
- all people have contributions to make
- home life must be self-directed
- positive supports provide the best long-term results
- employment is a fundamental part of adult life
- social life and relationships create quality of life
