# MAY

The Academy at Manhattan Beach

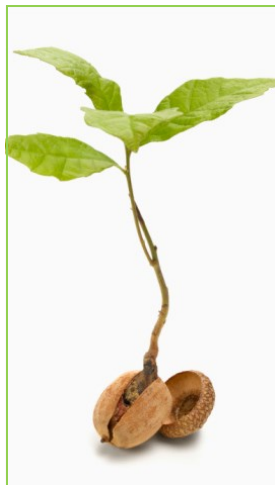

## STAR OF THE WEEK

\* 5/6—5/17

-Oliver Garcia-

\* 5/20—5/31

-Brooklyn Beran-

As May brings us closer to graduation our month will revolve around continuing providing those opportunities to grow as little individuals; our theme will be all about growing minds!

For the first week of May, we will be covering Mother's Day and family relationships (siblings, extended family). All week long the children will be making art gifts for their mommies such as a card and a family portrait!

For the second week children will become scientists and learn all about gardening. For

science, children will infer what plants need in order to grow or not by looking at pictures and gluing them to the appropriate column!

On the third week children will discover bugs, insects, and caterpillars. They will be exploring insects such as butterflies, ladybugs, caterpillars, bumblebees, and even making firefly lights!

The fourth week will be all about exploring a farmer's market and a grocery store. Chil-

dren will play grocery store bingo with the help of a teacher. They will have to match the item being shown to a grocery picture on their mat in order to leave a counter. If they get all of the matching pictures they get to yell Bingo!

As we finish up the month of May, the following week will be none other than graduation! Children will be preparing for this day all month long and soon after will venture off onto a new adventure!

# Reminder Dates

May 9th—

May 28-31—

May 27—

June 7th—

## Mother's Day Party

## Window Decorating Voting Contest

## Memorial Day

## Graduation Day!!

We invite all the mothers to join us in celebration in honor of Mother's Day!

Vote for your favorite Dr. Seuss classroom wall design at the front desk!

There will be no school on Monday May 27th. We will see you back Tuesday!

Graduation begins at 3P.M.
