

Mineral Reserves and Resources

June 2022

The following tables provide a breakdown of Seabridge's most recent National Instrument 43-101 compliant estimates of mineral reserves and resources by project. Seabridge notes that mineral resources that are not mineral reserves do not have demonstrated economic viability.

Note: United States investors are cautioned that the requirements and terminology of NI 43-101 differ significantly from the requirements of the SEC, including Industry Guide 7 under the US Securities Act of 1933. Accordingly, the Issuer's disclosures regarding mineralization may not be comparable to similar information disclosed by companies subject to the SEC's Industry Guide 7. Mineral Resources which are not Mineral Reserves do not have demonstrated economic viability. It is reasonably expected that the majority of Inferred Mineral Resources could be upgraded to Indicated Mineral Resources with continued exploration.
