

Horizons[™]

Teacher Degree Program

Bright Horizons[®] Teachers
Can Get Their Degree
FOR FREE

Our teachers provide a great education to your children every day and they deserve that same gift in return. In July 2018 we launched the *Horizons Teacher Degree Program*, and through this new benefit, all full-time employees in Bright Horizons centers and schools are eligible to earn their associate and bachelor's degrees in early childhood education completely free with no out of pocket costs.

There's never been a better time to work for Bright Horizons! If you know someone with a passion for working with children, refer them and you could earn a credit* toward your monthly tuition.

Visit www.brighthouse.com/careers for a list of current openings. Be sure to share your referral's information with your Center Director!
