

# FROM “5G+” TO “AI+”

THRIVING A SHARED DIGITAL FUTURE

China Mobile Yang Jie

# **New Opportunities of the Technology Revolutions**

# Data

New Factor of Production

Labor, Capital  
Industrial Civilization

Data  
Information Civilization

## Enhanced Metcalfe's Law

# Computility

## New Fundamental Energy

Coal, Crude oil  
Primary Energy

Electricity  
Secondary Energy

Computility  
Tertiary Energy

## Enhanced Moore's Law

Performance  $\times 2$     Cost  $\times 1/2$

1.5 Years

1 Year

# AI New Instrument of Production

Steam, Electric Engine  
Body Extension

AI  
Intelligence Extension

## Enhanced Scaling Law

Performance

Emergent Abilities of LLM

Model Scale

**New Missions beyond “5G+”**

# “5G+” Plan

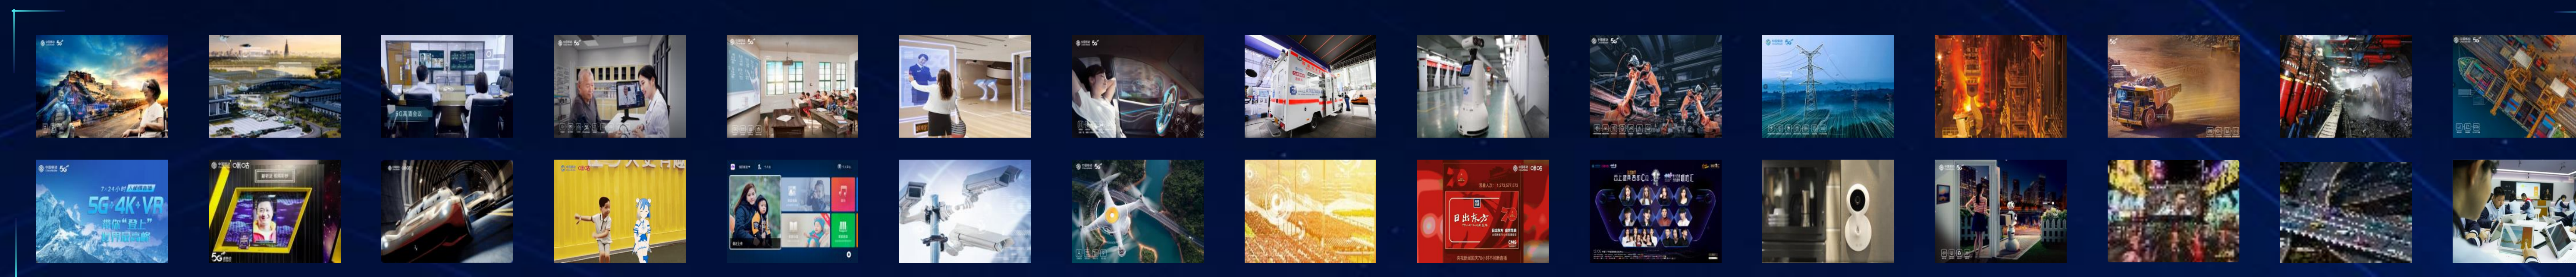

5G Base Stations >1.9 M

5G Package Subscribers ~800 M

Business Customers >25 M

5G Solution Use Cases >30 K

.....

# New Challenges

**New Era of “AI+”**

*Leading Innovator in*  
*Digital Technology and Information Services*

5G +

AI +

# Innovation in Integrated Ubiquitous Infrastructure

Data Switching Service  
Network

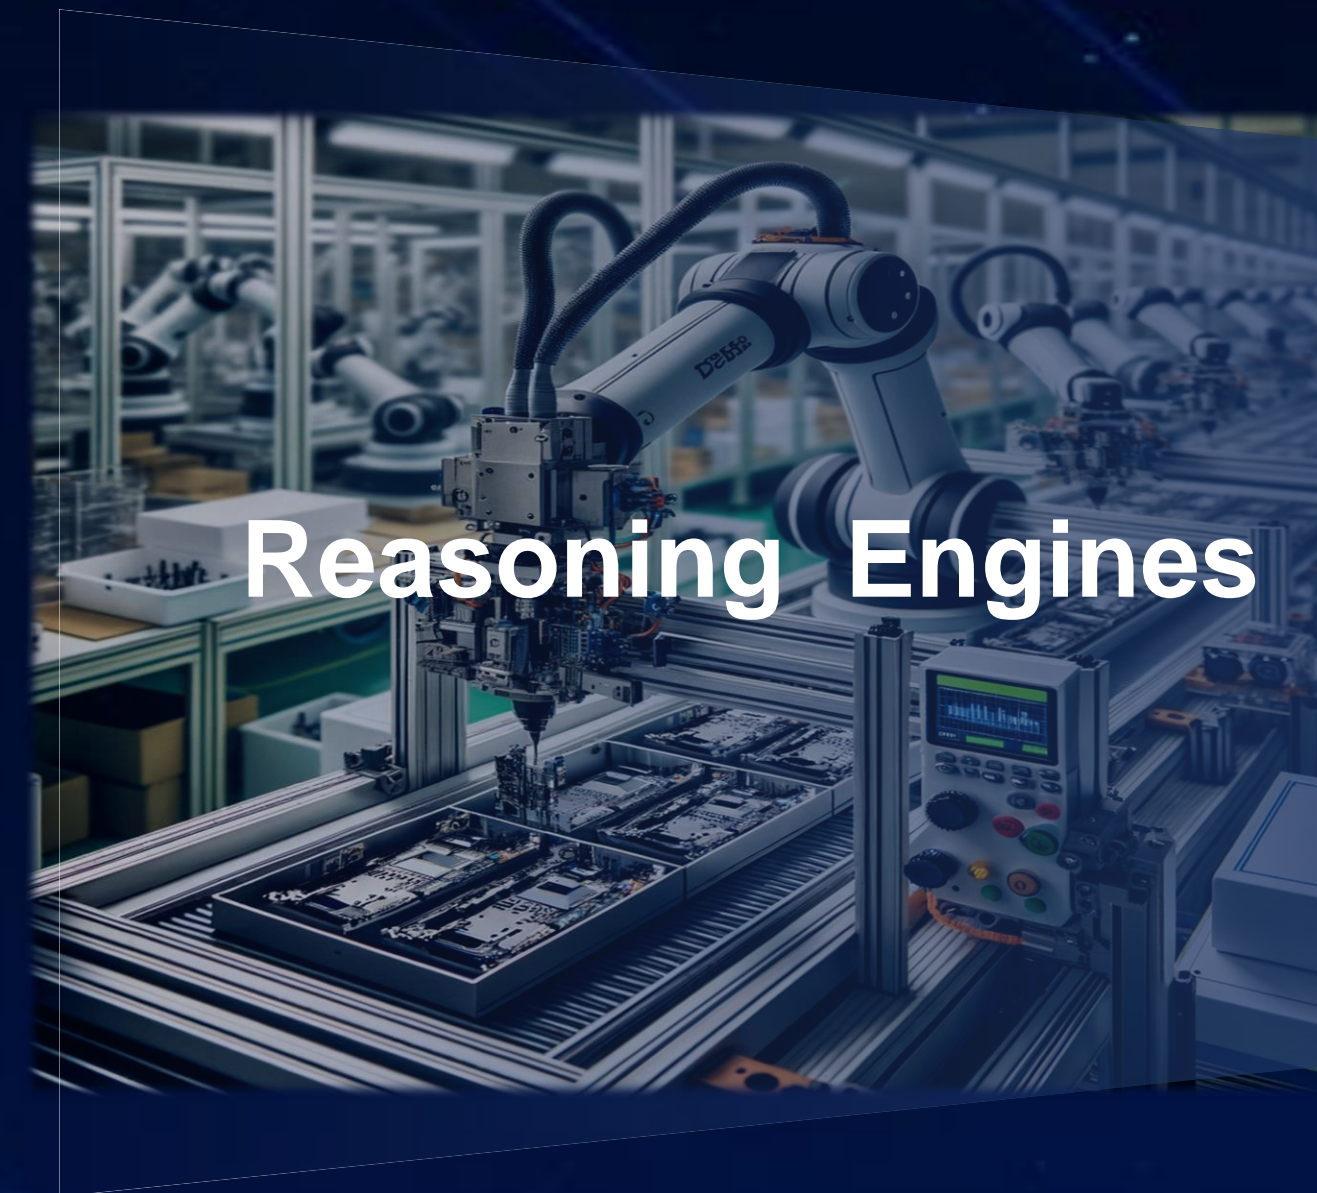

Computility  
Network

Next-Gen  
Network

# Innovation in AI Native Service

# Innovation in Collaborative Ecosystem

# Fulfilling the Concept of Open Gateway

## Integration Platform

APIs ~ 1000

Usage per year > 580 B

Authentication

Payment

Positioning

.....

# Thriving the Ecosystem of Open Gateway

## New Launched Features

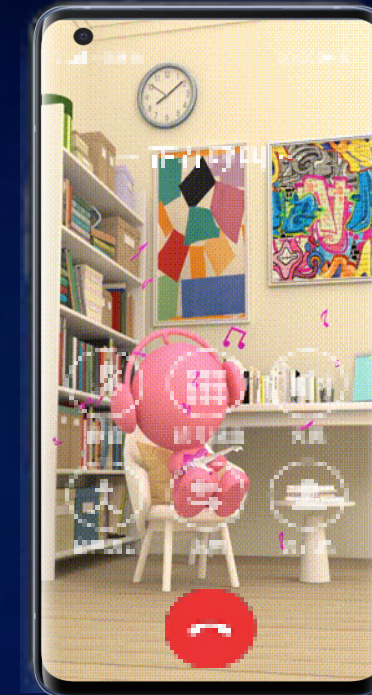

5G New Calling

Video Tones

Super SIM
