

WELCOME TO THE SYMPOSIUM: FORWARD THINKING ON ANTIMICROBIAL RESISTANCE (AMR)

Working together in the fight against AMR

From diagnostics to patients

Tuesday, November 22nd, 2022

Time: 8:30 am – 4:30 pm EST

Ballroom B & C

Morning

8:30 - 9:00	Breakfast & Networking
9:00 - 9:30	Welcome - bioMérieux
9:30 - 10:00	Multi-drug resistant organisms (MDROs) in the laboratory - impact and challenges - Dr. Susan Poutanen
10:00 - 10:30	Understanding breakpoints - Dr. Tony Mazzulli
10:30 - 10:50	Break
10:50 - 11:20	2022 update on antifungal susceptibility testing - Dr. Philippe Dufresne
11:20 - 11:50	Is it time to BENCH phenotypic AST and step into the genomic era?: A debate – Dr. Tanis Dingle, Dr. Ramzi Fattouh
11:50 - 13:30	Lunch & Lab Tours (#1 and #2)

Afternoon

13:30 - 14:00	From diagnosis to treatment – The power of diagnostic and antimicrobial stewardship - Dr. Victor Leung
14:00 - 14:30	An update on AMR situation in Canada in Canadian Hospitals: CNISP and SPIN perspective (new trends) - Dr. Charles Frenette
14:30 - 14:45	Break
14:45 - 15:20	Role and gaps of current microbiology diagnostics to address sepsis - Ms. Katherine Perez
15:20 - 15:50	The Interplay of Rapid Diagnostics and Antimicrobial Stewardship in Sepsis: A Tale of Two Cities in the U.S and Canada - Dr. Aleksandra Stefanovic; M. Scott Bergman
15:50 - 16:30	Canadian clinical microbiology laboratory initiatives that support antimicrobial stewardship programs - Dr. Danielle Brabant-Kirwan
16:30	Departures
16:45	Lab Tours #3 and #4
