| Emergency brake holds properly | | | | ✓ | | | |
| Emergency brake indicator light comes on when set | | | | | | | |
| | | | | | | | |

NOTES

Although there are numerous fluid leaks & seepages, including a rubber fuel hose leak at the fuel pump, this is overall, a very good condition vehicle. The fuel tank is new. I noticed a couple small pin holes at the rear of the drivers side rocker panel and a sheet metal patch on the passengers front floor pan. The frame, floors & structure are in very good overall condition. The 4 power windows are operable, although slowly at some points of the travel. I feel that I can render an accurate & competent assessment of this vehicle due to the experience of having done many car restorations, including several "frame off" restorations.

Thomas E R.
