

Keeping Our Youth Safe Online: What Every Adult Should Know

"I left this presentation a changed person. It scared me into being more aware of my children's computer time and helped me to see how easy it is to fail to protect your family..."

-Melanie Stephenson CAFAP buddy

Featured speaker, Scott Driscoll is a law enforcement officer with 21+ years of experience.

He became a member of a federal crimes against children task force in 2003 and in 2007 Scott started a company called, Internet Safety Concepts where they educate people through conferences and seminars about safety using technology and the internet.
