

Green Room Newsletter: Ms. Cindy & Ms. Racheal

Hello Green Room Families,

For the first week of June, we will be learning about **Father's Day, Camping and Fishing**. We will start the week off with **Father's Day**. The children will be decorating Father's Day cards. We will also be learning about **Fishing**. The children will be using plastic fishing poles to fish for letters in a bucket. The children will also be making popsicle stick fishing poles. The children will jump into learning about **Camping**. They will be using flash lights to search for letters on star cutouts. Then the children will explore the world of **Hiking**. The Children will decorate a body cutout by gluing on hiking gear on the cutout. Then we will close the week with **S'mores**. The children will make s'mores with a teacher's help.

For the second week we will be learning about, **Construction**! During this week we will learning about different **tools** from a hammer to a saw by hammering in some pegs into a letter board. Then we will be talking about what a **Bull Dozer** does and move onto talking about **blue prints** by building a house with shaving cream and table blocks. Next we will talk about how cool an **Excavator** are and end the week talking about **Dump Trucks** and paint our own construction helmet with a paper bowl!

During the third week we will learn about **Transportations**. The children will learn about **Cars** by making a car out of popsicle sticks. We will also learn about **Trucks**. The children will doing trunk puzzles buy matching the pieces to a picture. Next, we will learn about **Trains** and will make trains out shapes cutout pieces. **Airplanes** are another way of transportation we will explore by making tissue paper airplanes. Lastly, the children will learn about **Boats**. The children will make their own boats out of foil and placing object inside to see if they float or sink.

For the last week, we will be looking into different **Occupations**! We will start off talking and learning about **Police officer, veterinarians, Mail Carriers, Doctors, and Dentist**. Throughout the week we will explore each profession, make fun police car foot print, examine pets by matching them to the corresponding shape shadow, match mail carrier to the corresponding letters, be a doctor for a day with a doctor badge, and cleaning teethes like a Dentist by the end of the week!
