- MS Office

### PROFILE

After approximately 7-8 months of marketing experience at Mekan 360 (Mytek Reality), I studied human resources at university to better utilize my interpersonal skills and graduated. I then continued as an HR Assistant at Hedef Holding, where I had previously interned. Here, I support all HR processes and develop myself every day. I also believe that the human resources profession is perfect for me; I love this job.

I have excellent interpersonal skills, never shy away from responsibility, dislike procrastinating on assigned tasks, am responsible, and am very team-oriented. I am open to learning about any subject and enjoy learning new things. I am also very good at crisis management and analytical thinking.

Thank you for your consideration,  
Best regards.
