Reimagined & Refined Living in Southwest
Oakville

A Home That Changes How You Live.

Wake up in a private primary suite designed as a true retreat, with soaring ceilings, natural light, and Juliette balconies that bring the outside in.

Move through a home that feels open, connected, and intentional, where space flows naturally and each area supports how you live, host, and unwind.

Step outside into a thoughtfully designed backyard retreat, where mature landscaping, an inground pool, and curated outdoor spaces create a setting that feels closer to a boutique resort than a typical backyard, reminiscent of Santorini along the Aegean Sea.

Mornings start slower. Evenings last longer. Home becomes more than a place. It becomes an experience.

REIMAGINED WITH PURPOSE

- ✓ Over \$500,000 invested in transformation and tailored design
- ✓ 3,070 sq ft of refined living
- ✓ Private primary bedroom suite retreat with curated design and presence
- ✓ Curated interiors with elevated finishes and detailing
- ✓ Resort-style backyard with pool, cabana, landscaping and lighting

Take a look inside

A Home Defined by Space, Flow, and Experience

Step into a home where arrival is intentional. The reimagined front elevation, defined by natural stone, architectural detail, and integrated lighting, leads to an elevated covered entry that delivers a strong sense of presence before you even step inside.

A dramatic two-storey foyer follows, setting the tone with scale, openness, and natural light.

From there, the home opens into a connected main level where each space flows naturally into the next. The kitchen, dining, and living areas are designed to feel both expansive and intentional, supported by approximately 3,070 sq ft of living space across the home.

The kitchen anchors the space with a refined balance of design and function, offering well-appointed cabinetry, stone surfaces, and a layout that supports both everyday living and entertaining.

Across levels, the home adapts to how you live. Whether for family, guests, work-from-home, or multi-generational living, each space feels purposeful and well considered.

The private primary suite is set apart as a true retreat. Elevated by scale, architectural detail, and natural light, it offers a rare level of separation and comfort, further enhanced by dedicated climate control with its own furnace and a refined ensuite with heated floors.

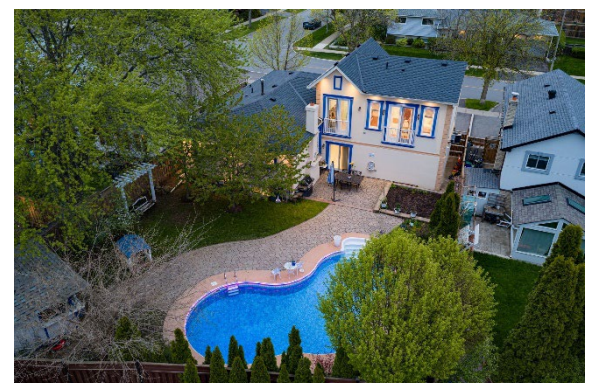

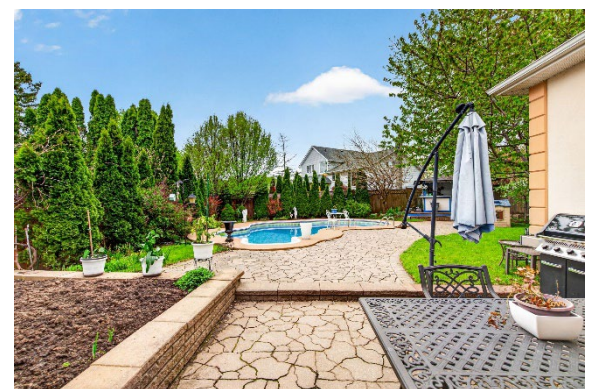

The lower level continues the experience, enhanced by enlarged above-grade windows that bring in natural light and create a space that feels connected to the outdoors rather than below it.

What stands out most is not just how the home looks, but how it lives. Every transition feels natural. Every space feels intentional. The result is a home defined by space, flow, and experience.

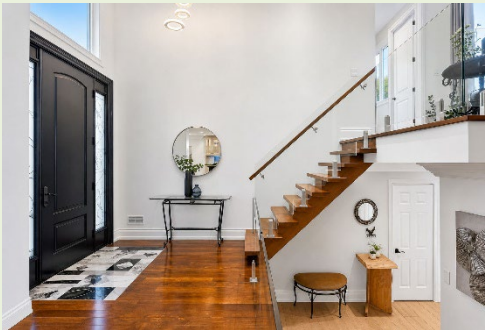

Outdoor Escape

- ✓ A setting reminiscent of coastal European retreats
- ✓ Resort-style pool, patios, and lounge spaces
- ✓ Mature landscaping creating privacy and presence
- ✓ A backyard experience that feels set apart and distinctly your own

Defined by Detail, Backed by Investment
