

JUNE 2019

The Academy at Venice

When I Grow Up!

Summer is finally here Yellow Room friends! Thank You to all of our supportive Yellow Room parents! We Thank you All!

To start things off this month, we will be talking about construction. In art this week we will be decorating traffic cones, and making dump trucks and Bulldozers. For math and science activities we will be doing a ring toss using a traffic cone, building shapes, and also constructing skyscrapers.

The second week we will be talking about Father's Day, camping and all the fun stuff we do with our dads. We will be making Father's Day gifts, experimenting with glow sticks, making s'mores on a stick, using a fish sensory table, and tracing the names of different sports.

The third week we will be talking about what our friends want to be when they grow up. We will also discuss different occupations and our community helpers. We will be learning about astronauts, teachers, veterinarians, chefs, artists and

more. We will be building rockets, baking in the kitchen, and finding letters in alphabet soup. We're excited to hear what our friends want to be when they grow up!

Lastly, as June comes to an end, we will talk about transportation. We will be tracing roads that are various shapes, creating a puffy paint car, making a pool noodle boat, tracing letters on a license plate, and sequencing an alphabet train.

Don't forget, CHALK Preschool is taking a quick 1-week summer break to allow families to spend time together! School will be closed from July 1st to July 5th! Have a fun and safe 4th of July!
