Independent Auditor's Report

To the Board of Trustees of the San Antonio Museum of Art San Antonio, Texas

Opinion

We have audited the financial statements of San Antonio Museum of Art (the Museum), which comprise the statements of financial position as of September 30, 2021 and 2020, the related statements of activities and changes in net assets, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Museum as of September 30, 2021 and 2020, and the change in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Museum and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Museum's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

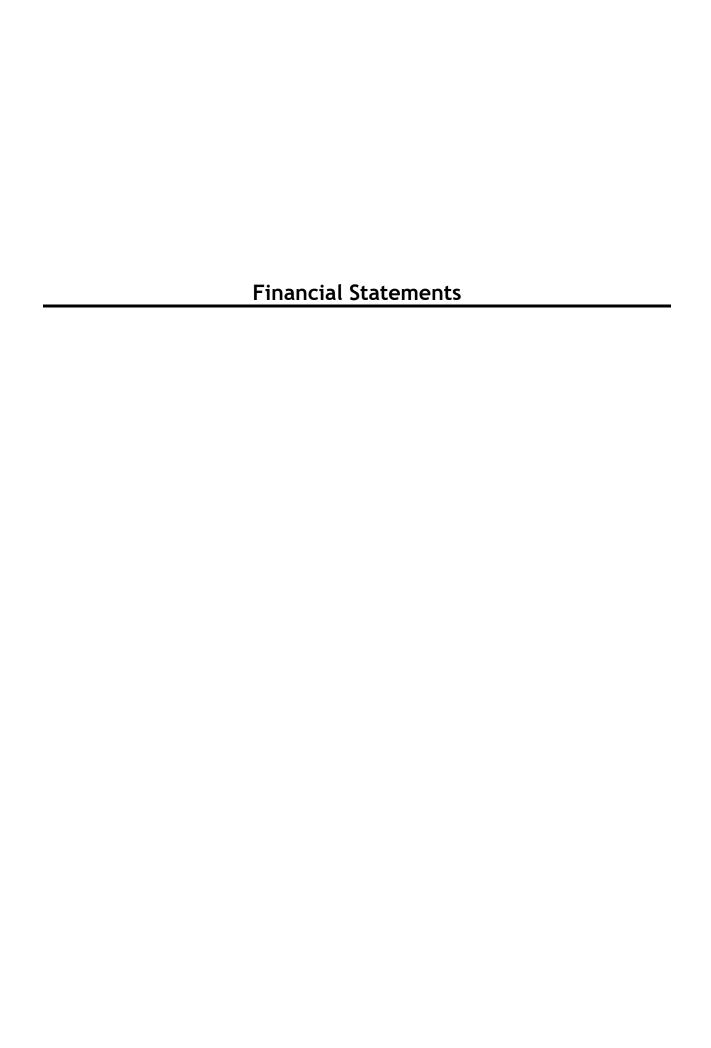

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of
 expressing an opinion on the effectiveness of the Museum's internal control. Accordingly,
 no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Museum's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Notes to Financial Statements

1. Organization and Summary of Significant Accounting Policies

Organization

The San Antonio Museum of Art (the Museum) is a not-for-profit organization whose mission is to collect, preserve, exhibit, and interpret significant works of art representing a broad range of history and world cultures. In accordance with the highest professional standards, the Museum holds these collections for the benefit of the community and future generations. It is the Museum's responsibility to educate and engage diverse audiences, provide transformational experiences, strengthen our shared understanding of humanity, and encourage a sense of wonder and discovery.

Summary of Significant Accounting Policies

The accounting and reporting policies followed by the Museum in the preparation of its financial statements conform to accounting principles generally accepted in the United States of America (GAAP) and are summarized as follows.

Basis of Presentation

The accompanying financial statements of the Museum have been prepared on the accrual basis of accounting in accordance with GAAP, following the recommendations of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 958, Financial Statements for Notfor-Profit Organizations. The financial statements, accordingly, reflect all significant receivables, payables and other liabilities.

The Museum reports information regarding its financial position and activities according to two classes of net assets:

Without Donor Restrictions - Net assets that are available for use in general operations and are not subject to donor (or certain grantor) restrictions. The governing board may designate from net assets without donor restrictions for an operating reserve or board designated endowment. The board has not designated any assets as of September 30, 2021 or 2020.

With Donor Restrictions - Net assets subject to donor (or certain grantor) imposed restrictions. Some donor imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor imposed restrictions are perpetual in nature, where the donor stipulates that resources be held in perpetuity. Donor imposed restrictions are released when a restriction expires, that is when the time stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both.

Cash and Cash Equivalents

For purposes of the statements of cash flows, the Museum considers cash and cash equivalents to be cash balances and highly liquid investments purchased with a maturity of three months or less. Carrying value approximates fair value. Cash and equivalents that are part of long-term investments are shown within investments as those resources are not available for operational purposes.

Notes to Financial Statements

1. Organization and Summary of Significant Accounting Policies (Continued)

Pledges, Grants and Accounts Receivable

Accounts, grants and pledges receivable at September 30, 2021 and 2020, consisted primarily of amounts owed the Museum from donors, sponsors, and members. At September 30, 2021 accounts, grants and pledge receivables also consists of Employee Retention Credits (ERC) (See note 19) receivable. Management reviews outstanding receivables at year-end. In evaluating collectability, management maintains regular contact with those that owe the Museum to ensure future payment. Management has deemed these amounts are fully collectible at year-end; therefore, no allowance for bad debts has been computed as of September 30, 2021 and 2020. There was no bad debt expense recorded as of September 30, 2021. Bad debt expense recorded as of September 30, 2020 was \$4,946.

Unconditional promises to give are recognized as revenue and pledges receivable when made and reported at fair value based upon estimated future cash flows. Allowances are recorded for estimated uncollectible promises. Conditional promises to give are recognized as revenue when the conditions have been met.

Unconditional promises to give that are expected to be collected within one year are reported at the net realizable value. Unconditional promises to give that are expected to be collected in future years are reported at the present value of their estimated cash flows. The discounts on those amounts are computed using market interest rates applicable to the years in which the promises are expected to be received (note 4).

Revenue Recognition

Effective October 1, 2020, the Museum adopted Accounting Standards Codification ("ASC") Revenue from Contracts with Customers ("ASC 606"), using the modified retrospective method. This standard applies to all contracts with customers, except for contracts that are within the scope of other standards, such as contributions and financial instruments. Under ASC 606, an entity recognizes revenue when it transfers control of the promised goods or services to its customer, in an amount that reflects the consideration which the entity expects to receive in exchange for these goods or services. If control transfers to the customer over time, an entity selects a method to measure progress that is consistent with the objective of depicting its performance. There was no impact upon adoption of ASC 606. As a result, no disclosure of the impact is applicable.

The majority of the Museum's revenue arrangements generally consist of a single performance obligation to transfer promised goods or services. Based on the Museum's evaluation process and review of its contracts with customers, the timing and amount of revenue recognized previously is consistent with how revenue is recognized under the new standard. No changes were required to previously reported revenues as a result of the adoption.

Management has determined the following revenue streams are subject to the guidance of ASC 606:

Memberships are on a one year basis and are recorded at the beginning of the membership year. No material difference exists between recognizing the membership at a point in time instead of over time.

Notes to Financial Statements

1. Organization and Summary of Significant Accounting Policies (Continued)

Revenue Recognition (Continued)

Admission and Gift Shop - The Museum charges general admission fees and exhibit fees for non-member visitors to the Museum; revenue is recognized upon admission to the museum. Revenue from the Museum gift shop is recognized when merchandise is purchased and delivered to the customer.

Special Events - Special Events are hosted throughout the year to introduce new exhibits or as annual fundraisers. Revenue associated with these events is collected in the form of table sales, admission tickets, raffle tickets, and other forms of contribution by the attendees. Revenue is recognized in the period the performance obligation is met. Any amounts collected in advance of the event are record as deferred revenue.

In June 2018, the FASB issued ASU 2018-08, Not-For-Profit Entities (Topic 958), Clarifying the Scope and Accounting Guidance for Contributions Received and Contributions Made. This ASU provided guidance in evaluating whether transactions should be accounted for as contributions or as exchange transactions subject to other guidance. The Museum adopted this ASU on October 1, 2019 and determined all contributions are nonreciprocal transactions, and as such are properly accounted for as contributions; therefore, there was no impact upon adoption of this standard.

Contributions and Grants - The Museum recognizes pledges as receivables and revenue when the unconditional promises to give are received. Conditional challenge grants and pledges are recorded as revenue as the grant conditions are met. Revenue from restricted reimbursable type grants is recognized in accordance with grant terms when allowable expenditures are made. All other grants are recognized as revenue when the grant notice is received. Based on historical experience with grant collectability, all grants are estimated to be collectible. Therefore, the Museum does not provide an allowance for uncollectible grants receivable.

Investments

Investments are recorded at fair value at quoted market prices (see note 5).

Fair Value of Financial Instruments

The Fair Value Measurements and Disclosures Topic of FASB ASC defines fair value, establishes a three-level valuation hierarchy for disclosure of fair value measurements, and expands disclosures about fair value measurements. An instrument's categorization within the hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

- Level 1 Inputs that utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the Museum has the ability to access.
- Level 2 Inputs that include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument. Fair values for these instruments are estimated using pricing models, quoted prices of securities with similar characteristics, or discounted cash flows.

Notes to Financial Statements

1. Organization and Summary of Significant Accounting Policies (Continued)

Fair Value of Financial Instruments (Continued)

Level 3 - Inputs that are unobservable inputs for the asset or liability, which are typically based on an entity's own assumptions, as there is little, if any, related market activity.

The Museum uses net asset value (NAV) per share, or its equivalent, such as member units or an ownership interest in partners' capital, as a practical expedient to estimate the fair values of certain hedge funds, private equity funds, fund of funds, and limited partnerships, which do not have readily determinable fair values. Investments that are measured at fair value using NAV per share as a practical expedient are not classified in the fair value hierarchy.

Inventory

Inventory is comprised of gift shop inventory items and is stated at the lower of cost or market. Inventory is carried at average cost.

Land and Fixed Assets

Fixed asset purchases are recorded at cost and include the cost of those improvements which increase the economic useful lives of the assets. Repairs and maintenance are charged to operations as incurred. When fixed assets are retired or otherwise disposed of, the cost and accumulated depreciation are removed from the accounts and any resulting gain or loss is included in the statement of activities for the respective period. Depreciation is provided in amounts sufficient to distribute the cost of depreciable assets over their estimated service lives, on a straight-line basis. Furniture and equipment are depreciated over 3-10 years, and the building and building improvements are depreciated over 3-40 years. Land has an unlimited useful life and, therefore, is not depreciated. Collections of art are not capitalized (see note 11).

Construction in Process

The Museum is in the process of completing gallery renovations and other projects. The Museum incurred and capitalized construction cost of \$489,894 and \$430,367 during the years ended September 30, 2021 and 2020, respectively on projects that have not been placed in service as of September 30, 2021 and 2020.

Deferred Revenue

Deferred revenue represents revenue attributable to event sponsorships that have not yet been completed or fulfilled.

Contributed Services

A substantial number of volunteers have made significant contributions of their time to assist the Museum, especially its fundraising and educational programs; however, the financial statements do not reflect the value of these contributed services because they do not meet the recognition criteria prescribed by generally accepted accounting principles. Contributed goods are recorded at fair value at the date of donation. Donated professional services are recorded at the fair value of the service received. No significant goods or services were received by the Museum for the years ended September 30, 2021 or 2020.

Notes to Financial Statements

1. Organization and Summary of Significant Accounting Policies (Continued)

Advertising Costs

Advertising costs are expensed as incurred. Advertising costs, exclusive of in-kind costs, were \$568,646 and \$201,618 for the years ended September 30, 2021 and 2020, respectively.

Museum Collections

In March 2019, the FASB issued ASU 2019-03, Not-for-Profit Entities (Topic 958): Updating the Definition of Collections to better align with the definition that many entities use for accreditation purposes. The ASU applies to all entities, including business entities, that maintain collections. The ASU also requires a collection-holding entity to disclose its policy for the use of proceeds from when collection items are removed from a collection. Under the ASU, if an entity has a policy that allows proceeds from items that are deaccessioned to be used for direct care, it is required to disclose its definition of direct care. The ASU takes effect for annual financial statements issued for fiscal years beginning after December 15, 2019. The Museum has adopted this standard on a prospective basis for the year ended September 30, 2021.

In conformity with industry practice, museum collection items purchased or donated are not recorded as assets in the accompanying statement of financial position. Even though not reflected in the statement of financial position, the Museum's collections represent one of its most valuable assets. Purchases of collection items are reported as decreases in net assets without donor restrictions, or as decreases in net assets subject to specific time or purpose restrictions. From time to time the Museum may deaccession collection items in order to refine its collections in accordance with its mission statement and collection goals. Funds obtained through the deaccessioning of an object can only be used to purchase works of art.

The Museum employs full-time employees to manage the stewardship of the collection items in accordance with the collection and acquisition policy and under the direction of the executive director and board of directors. Each item is numbered and catalogued in a continuous inventory tracking system.

Federal Income Tax Exemption

The Museum is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code (the IRC). The Museum follows the provisions of FASB ASC 740-10 on *Accounting for Uncertainty in Income Taxes*, which requires recognition and disclosure of uncertain tax positions in the financial statements. The Museum's management believes that it has appropriate support for any tax positions taken and that it has no material uncertain tax positions. Accordingly, it will not recognize any related liability. For the years ended September 30, 2021 and 2020, the Museum did not recognize any interest or penalties in the financial statements.

Tax years after 2017 remain open to examination by the taxing jurisdictions to which the Museum is subject, and these periods have not been extended beyond the applicable statute of limitations.

Notes to Financial Statements

1. Organization and Summary of Significant Accounting Policies (Continued)

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities, at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Functional Allocation of Expenses

The costs of fundraising and other activities have been summarized on a functional basis in the statements of activities. Accordingly, certain costs have been directly allocated among program, fundraising, and general and administrative expenses based on actual figures associated with each function or an allocation of time and effort (see note 17).

Accounting Pronouncements issued but Not Yet Adopted

Leases (Topic 842)

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*, to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the statement of financial position and disclosing key information about leasing arrangements for lessees and lessors. The new standard applies a right-of-use (ROU) model that requires, for all leases with a lease term of more than 12 months, an asset representing its right to use the underlying asset for the lease term and a liability to make lease payments to be recorded. On May 20, 2020 the FASB voted to defer the effective date of ASC 842. The ASU is effective for the Museum's annual periods beginning after December 15, 2021, which is the year ended September 30, 2023, with early adoption permitted. Management is currently evaluating the impact of this ASU on its financial statements.

Contributed Nonfinancial Assets (Topic 958)

On September 17, 2020, FASB issued ASU 2020-07, *Not-for-Profit Entities (Topic 958): Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets.* The Update is expected to increase transparency around contributed nonfinancial assets (also known as "gifts-in-kind") received by not-for-profit (NFP) organizations, including transparency on how those assets are used and how they are valued. The amendments in this Update should be applied on a retrospective basis and are effective for annual periods beginning after June 15, 2021, and interim periods with annual periods beginning after June 15, 2022. Early adoption is permitted. Management is currently evaluating the impact of this ASU on its financial statements.

Notes to Financial Statements

2. Concentration of Credit Risk

Financial instruments which potentially subject the Museum to a concentration of credit risk consist principally of cash.

The Museum maintains multiple bank accounts in San Antonio, Texas. All of a depositor's accounts at an insured depository institution, including all non-interest-bearing transaction accounts, are insured by the FDIC up to the standard maximum deposit insurance amount of \$250,000 for each deposit insurance ownership category. At September 30, 2021 and 2020, the Museum had uninsured cash balances in excess of FDIC insurance limits; however, management has not experienced any losses as a result.

3. Liquidity

Financial assets available for general expenditure, that is, without donor or other restrictions limiting their use, within one year of the statement of financial position, comprise the following:

September 30,	2021	2020
Cash and cash equivalents	\$ 8,061,217	\$ 6,689,519
Less: amounts with donor restrictions	(4,264,890)	(5,616,504)

The Museum regularly monitors liquidity to meet its operating needs and other contractual commitments, while also striving to maximize the investment of its available funds. The Museum has various sources of liquidity at its disposal, including cash and cash equivalents and various receivables. Upon board approval, the Museum may also draw upon the available Line of Credit. See note 9.

In addition to the financial assets available to meet general expenditures over the next 12 months, the Museum operates with a balanced budget and anticipates earned revenues and annual support contributions sufficient to cover general expenditures not provided by endowment spending rate or other donor restricted sources.

Our endowment funds consist of donor-restricted endowments. Income from donor-restricted endowments is restricted for specific purposes. The exception is for donor-restricted endowments purposed for general operations which have been grouped together and are subject to an annual spending rate of 4.5 percent as described in note 18. Although we do not intend to spend more than this 4.5 percent appropriated for general expenditure as part of our Board's annual budget approval and appropriation, the Board could approve a higher percentage appropriation, if necessary. The Museum's estimated distribution for the next fiscal period is \$1,680,196.

Intermediate-term bond	3,307,991	3,266,854
World bond	3,794,669	3,937,956
Other Funds:		
Core fixed income	4,109,779	4,267,000
International value	7,436,249	5,804,648
Total Investments	\$ 62,274,636	\$ 55,806,404

6. Fair Values of Financial Instruments

The Museum records investments at fair value. See note 1 for descriptions of levels used to determine fair value. The following represents the fair value measurements of the investments of the Museum on a recurring basis as of September 30, 2021 and 2020:

Money Market Funds, Equities, Bond Funds, and Equity Funds held by the Museum at fiscal year-end are valued at the fair value of shares at quoted market prices.

The core fixed income and international value funds are limited partnerships that are valued using net asset value (NAV) of the partnership assets held.

Pledges Receivable are stated at the original amount pledged by the contributor net of any allowance deemed necessary by management and discounted to the present value of expected cash flow. For the years ended September 30, 2021 and 2020 no allowance was deemed necessary by management based on historical experience with the respective donors. See note 4 for discount information.

Notes to Financial Statements

7. Land and Fixed Assets

Major classifications of land and fixed assets are summarized below:

	2021	2020
Buildings, improvements, and landscaping	\$ 37,421,223	\$ 37,263,850
Furniture and equipment	1,225,413	1,281,946
Land and land improvements	4,533,075	4,533,075
Total Land and Fixed Assets	43,179,711	43,078,871
Accumulated depreciation and amortization	(24,311,850)	(23,395,253)
Construction in Progress	489,894	430,367
Net Land and Fixed Assets	\$ 19,357,755	\$ 20,113,985

For the years ended September 30, 2021 and 2020, the Museum disposed of fixed assets of \$658,913 and \$109,937, with the netbook value of \$490,661 and \$2,754, respectively.

8. Involuntary Conversion

On September 2, 2017 a gallery in the Museum sustained water damage associated with a plumbing malfunction. Damage was recoverable through insurance. Under GAAP the Museum recognized the impairment and subsequent insurance recovery, in the financial statements.

During fiscal year 2020 additional insurance proceeds of \$58,702 were received related to the plumbing malfunction. As the full disposal of assets were recorded in the fiscal year 2017 the full amount of insurance proceeds is included in the gain on disposals in the statement of activities.

On February 15, 2021, a gallery in the Museum sustained water damage associated with sprinklers that burst due to freezing temperatures during a major snowstorm. As of September 30, 2021 the damage to the gallery had been assessed and the associated assets were disposed of as follows:

Original cost of assets damaged	\$ 348,409
Less: accumulated depreciation	25,749
Net book value of assets damaged and impaired	322,660
Insurance proceeds received prior to year end	611,201
Gain on involuntary conversion	\$ 288,541

9. Line of Credit

On November 7, 2020, the Museum entered a \$1 million line of credit, available through November 7, 2021, with interest rate of 3.874%. On September 30, 2021, no draws were taken on the line of credit. Subsequent to year end, the line of credit was extended by the bank to February 5, 2022.

Notes to Financial Statements

10. Notes Payable

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security (CARES) Act (the "Act") was enacted. The CARES Act is an approximately \$2 trillion emergency economic stimulus package in response to the Coronavirus outbreak, which among other things contains numerous income tax provisions. Some of these tax provisions are expected to be effective retroactively for years ending before the date of enactment. It also appropriated funds for the SBA Paycheck Protection Program ("PPP") loans that are forgivable in certain situations to promote continued employment.

On April 16, 2020, the Museum was approved and received a PPP loan in the amount of \$877,988. The forgiveness of the loan is dependent upon the Museum meeting the eligibility requirements as well as adherence to the forgiveness criteria. The Museum applied for forgiveness in February 2021 and received notice of forgiveness in July 2021. The gain on forgiveness of debt is recorded on the statement of activities.

On February 23, 2021, the Museum was approved and received a 2nd round PPP loan in the amount of \$889,637. The forgiveness of the loan is dependent upon the Museum meeting the eligibility requirements as well as adherence to the forgiveness criteria. The forgiveness is not recorded until final approval from the SBA is received. If any part of the loan should not be forgiven, then the loan is payable in 17 equal payments starting March 23, 2022 with final payment and maturity in February 2026. Interest is computed on a simple interest basis at 1.00% and will accrue beginning February 2021.

11. Art Collection

The Museum's collections are made up of artifacts of historical significance, scientific specimens, and art objects that are held for educational, research, scientific, and curatorial purposes. Each of the items is cataloged, preserved, and cared for, and activities verifying their existence and assessing their condition are performed continuously. The collections are subject to a policy that requires proceeds from their sales to be used to acquire other items for collections.

Contributions include only recorded cash receipts and pledges and do not include gifts of works of art received by the Museum, valued at \$696,500 and \$1,667,450 (unaudited) for the years ended September 30, 2021 and 2020, respectively. Prior to 1997, the Museum capitalized the cost of purchased collection items. In 1997, as required by GAAP, the Museum established a new accounting policy that art objects held for display, either purchased by the Museum or donated to the Museum, are not included in the Statements of Financial Position. Purchased artwork is expensed in the year of purchase. Art collection expense was \$432,594 and \$96,000 for the years ended September 30, 2021 and 2020, respectively.

Gifts of cash or other property restricted by donors for the purchase of items for the collection are classified as net assets subject to purpose restrictions until expended, and acquisitions are made in accordance with the terms of the gift.

Notes to Financial Statements

12. Leases

The Museum maintains several operating leases for copiers, a postage machine, and a phone system with average lease terms of five years. Total lease expense was \$74,059 and \$76,933 for the years ended September 30, 2021 and 2020, respectively. The leases expire at various dates through September 2026. Minimum rental commitments on these leases are as follows:

Years ending September 30,	
2022	\$ 67,400
2023 2024	67,400 67,400
2025	250
<u>Total</u>	\$ 202,450

13. Grants

The City of San Antonio (the City) provided support of \$340,385 and \$277,600 for the years ended September 30, 2021 and 2020, respectively, for the operations of the Museum.

14. Employees' Benefit Plan

The Museum has a defined contribution benefit plan for employees who have completed one year and 1,000 hours of employment, and who are at least 21 years old. The cost of the plan to the Museum was 3% of the annual compensation of the participants in 2021 and 2020. Benefit plan expense was \$98,461 and \$73,505 for the years ended September 30, 2021 and 2020, respectively.

The remainder of this page was intentionally left blank.

Notes to Financial Statements

15. Net Assets

Net assets with donor restrictions are restricted for the following purposes or periods are as follows:

	2021	2020
Perpetual in Nature		
Program and education	\$ 1,693,005	\$ 1,693,005
Exhibitions	1,933,134	1,933,134
Art acquisitions	4,873,413	4,873,413
Gallery and building maintenance	10,107,841	10,117,841
General museum support	4,614,857	4,604,857

Staff positions	16,504,658	16,019,970
	40,964,673	40,961,444
Subject to expenditure for specified purpose:		
Endowed earnings	22,547,727	16,626,996
Programs	164,642	142,478
Exhibitions	973,521	921,491
Art acquisitions	387,526	375,884
Construction and maintenance	2,109,613	3,252,490
General operations	1,151,497	1,555,424
Staff positions	409,337	588,832
	27,743,863	23,463,595
Total Net Assets with Donor Restrictions	\$ 68,708,536	\$ 64,425,039

For the years ended September 30, 2021 and 2020, \$987,764 and \$1,719,224 of pledges receivable and cash are included in net assets held in perpetuity, respectfully.

16. Net Assets Released from Restrictions

Net assets were released from donor restrictions by incurring expenses satisfying the restricted purpose, or by occurrence of other events specified by donors.

	2021	2020
Purpose of Restrictions Satisfied:		
Programs and exhibitions	\$ 3,898,562	\$ 3,584,842
Art acquisitions	432,594	96,000
Construction, improvements and purchase of facilities	1,329,708	384,790
Total Net Assets Released from Restriction	\$ 5,660,864	\$ 4,065,632

18. Endowment Funds

General Information

The Museum maintains various endowment funds established for a variety of purposes. These endowments include donor-restricted endowment contributions. The donor-restricted endowment funds fall under the provisions of the Uniform Prudent Management of Institutional Funds Act of 2006 (UPMIFA), which was adopted by the state of Texas with an effective date of September 1, 2007. This policy defines the Museum's interpretation of the provisions of this law as they relate to the prudent management of its endowment fund.

18. Endowment Funds (Continued)

Background

In July 2006, the Uniform Law Commission (ULC) approved UPMIFA as a modernized version of the Uniform Management of Institutional Funds Act of 1972 (UMIFA) which governed the investment and management of donor-restricted endowment funds by not-for-profit organizations. The major change of the new law is that UPMIFA prescribes new guidelines for expenditure of a donor-restricted endowment fund when there are no explicit donor stipulations. These guidelines require the Museum to determine what constitutes prudent spending based upon consideration of the donor's intent that the endowment fund continues permanently, the purpose of the fund, and relevant economic factors. UPMIFA emphasizes the perpetuation of the purchasing power of the fund, not just the original dollars contributed to the fund. Although UPMIFA does not require that a specified amount be set aside as principal, it assumes that an organization will preserve "principal" by maintaining the purchasing power of amounts contributed and will spend "income" by making distributions using a reasonable spending rate.

Endowment "Principal" Interpretation

The Museum has interpreted UPMIFA as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds, absent explicit donor stipulations to the contrary. As a result of this interpretation, the Museum classifies as restricted in perpetuity, net assets the original value of gifts donated to the endowment (the "Principal"). The remaining portion of the donor-restricted endowment fund that is classified as net assets restricted by time or purpose, until those amounts are appropriated for expenditure by the Museum in a manner consistent with the standard of prudence prescribed by UPMIFA.

Endowment Investment Objectives

Endowment investments are managed by professional money managers under the direction of the Investment Committee of the Board of Trustees of the Museum. Funds are invested in a manner that seeks to produce results that meet or exceed the performance of generally recognized market indices, while assuming a moderate level of investment risk.

To satisfy this performance objective, the Museum relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Museum targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

Endowment "Income" Appropriation (Spending Policy)

The Museum's policy is to appropriate for distribution each year a percentage of its endowment fund's average fair value based on a rolling average of the last 12 quarters. For 2021 and 2020, the distribution percentage was 5.5% and 4.5%, respectively. In establishing this policy, the Museum considered the long-term expected return on its endowment. This is consistent with the Museum's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term, as well as provide additional real growth through new gifts and investment return.

Notes to Financial Statements

18. Endowment Funds (Continued)

Endowment "Income" Appropriation (Spending Policy) (Continued)

In accordance with UPMIFA, in all its endowment spending activity, the Museum considers the following factors in making a determination to appropriate (spend) or accumulate donor-restricted endowment funds:

- 1. The duration and preservation of the fund
- 2. The purposes of the Museum and the donor-restricted endowment fund
- 3. General economic and investment market conditions
- 4. The possible effect of inflation and deflation
- 5. The expected total return from income and the appreciation of investments
- 6. Other resources of the Museum, and
- 7. The investment policies of the Museum

19. Risks and Uncertainties

Due to the concerns about the spread of COVID-19, the Museum noted a decline in admissions as the initial impact of the outbreak was rapidly evolving, and the Museum continues to note a decline in admissions when breakouts from additional COVID-19 strains cause a surge in cases. Although the outbreak was severe in the winter months, the museum remained open throughout fiscal year 2021 and was not forced to shut down.

The Museum's operations are dependent on private and public donations from individuals, foundations, and corporations. The effect of the initial outbreak may continue, or new outbreaks associated with new strains could have a material adverse impact on economic and market conditions triggering a period of national economic slowdown. If that occurred, the Museum could suffer from depressed revenues during such time as the outbreak continues, which could hinder our ability to advance our mission.

Notes to Financial Statements

19. Risks and Uncertainties (Continued)

On July 16, 2020, the Museum was notified by its third-party vendor that manages its donor information that a ransomware attack occurred in May 2020 on the third-party vendor's back-up system in which certain data was exfiltrated. The third-party vendor took immediate and decisive action to address the incident. Certain donor or constituent information was compromised as a result of the data breach. This incident has had no impact on the Museums operations or the data on the Museum's systems. As of the date of this report, the Museum cannot estimate the financial impact this event will have on their financial position, if any, and as a result, the Museum has not accrued any liability.

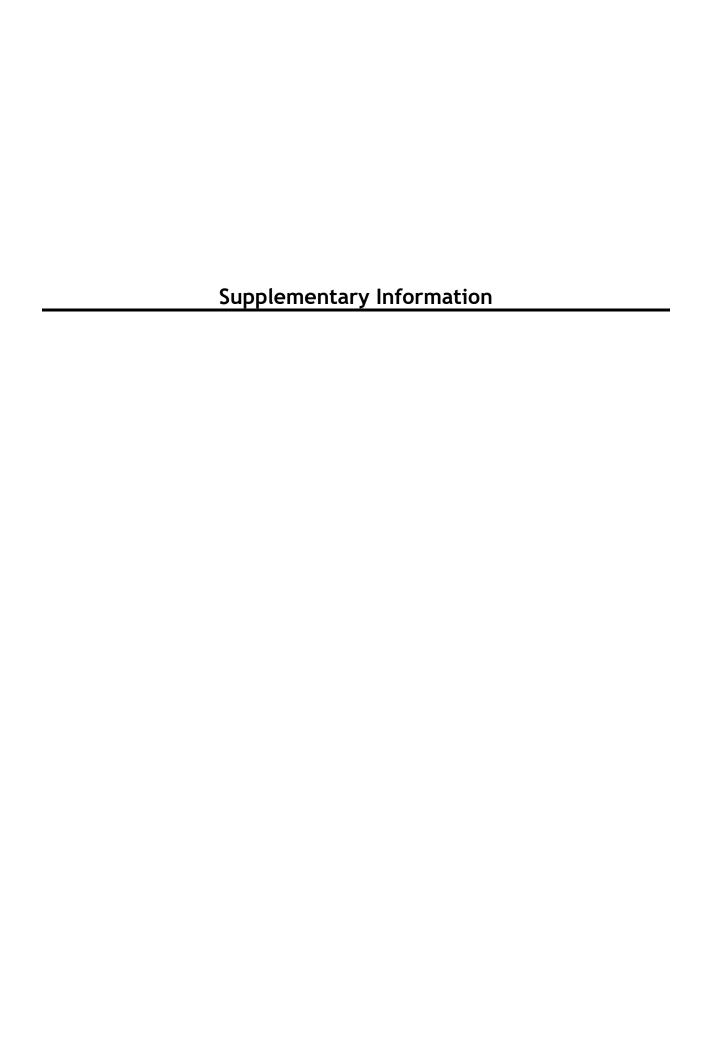

In fiscal year 2021, the Organization applied for \$2,336,624 in Employee Retention Credits under the CARES act. The benefit from the Employer Retention Credits is recorded in the statement of activities and changes in net assets. At September 30, 2021, \$1,793,735 of the benefit has not been received by the Museum and is recorded in accounts receivable on the statement of financial position.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. As such it is uncertain as to the full magnitude that the pandemic will have on the Museum's financial condition, liquidity, and future results of operations. Management is actively monitoring the global situation on its financial condition, liquidity, operations, suppliers, industry, and workforce.

20. Subsequent Events

Management has evaluated events subsequent to September 30, 2021 and through February 9, 2022, which is the date the financial statements were available to be issued.

Subsequent to year end the Museum applied for PPP loan forgiveness with the SBA and is awaiting forgiveness.

Independent Auditor's Report on Supplementary Information

Our audits of the financial statements included in the preceding section of this report were conducted for the purpose of forming an opinion on those statements as a whole. The supplementary information presented in the following section of this report is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Ms. Krystal Jones City of San Antonio Department of Arts and Culture P.O. Box 839966 San Antonio, TX, 78283-3966

Dear Ms. Jones,

In accordance with our grant agreement, I hereby certify, to the best of my knowledge and belief that the San Antonio Museum of Art has complied with the requirements of our 2021 agreement with the City of San Antonio.

The \$340,385 in funds you granted us for the use in 2021 was properly monitored and used only for authorized purposes. A schedule of cash receipts and disbursements by budgeting cost category is enclosed as required.

Sincerely,

Lisa Tapp CFO / COO
