**Betreft** Information evening about start of  
large-scale work Amstelveen Line

Dear residents, traders,

For the renewal of the Amstelveen Line (tram 51) – which turns into a premium tram connection between Westwijk and Amsterdam South – our main contractor VITAL will commence large-scale work at the intersection of Beneluxbaan and Sportlaan, in early 2019. This is needed to create room for the construction of a split-level crossing. For this, we have already felled a number of trees, but Beneluxbaan also needs to be relocated, in an outward direction.

### Information evening large-scale work Beneluxbaan

On the evening of Tuesday 27 November we will organise an information evening about these new developments. We will also update you about the planning of the project and how local public transport will change once tram line 51, in its current form, will stop running, from March 2019.

You are most welcome to come and see us on Tuesday 27 November between 18.30 and 21.00 hours, at Wijkcentrum De Bolder, Groenhof 140, Amstelveen. Vervoerregio Amsterdam will also be present, to answer your questions about Amsterdam's public transport network and the Uithoorn Line project. There is no need to register. Just come in whenever it suits you best.

Unable to attend on the 27<sup>th</sup>? Afterwards, we will make all information available at the 'Amstelveen InZicht' centre (details in the next paragraph). We will also publish a summary of the evening on our website. A new information session, about work which will take place from March 2019 at Sportlaan/in Amstelveen South, will be held in February.
