

ORANGE ROOM NEWSLETTER

The Academy at Westwood

June 2019

Ms. Ashli & Ms. Shea

Hi Orange Room, and welcome to the month of June! We will be discussing many interesting topics this month!

During the first week, we will be going over occupations and community helpers. The children will learn about the many jobs that help our community, such as working and service animals, farmers, the sanitation department, pilots and veterinarians. The children will further explore community helpers by doing many exciting and creative activities centered around the various occupations, such as creating airplanes out of clothespins during our pilot themed day!

During week two, we will talk about Father's Day. We will learn about the reason we celebrate Father's Day. The children will also talk about uncles and grandfathers. In addition, we will explore many fun activities we might do with fathers, such as camping and fishing. Finally, the children will talk about different ways they can help around the house to help their dad, uncles and/or grandfathers. To further understand their families, the children will complete a family tree that will list all of the men in their family, beginning with their grandfathers.

We will explore transportation during week three. We will learn about the different ways we are able to get around our community and the world, such as cars, buses, trains, ships/boats, and airplanes. When we explore transportation by car, the children will make their own traffic lights using black, red, yellow and green construction paper.

In the fourth and final week of June, the children will learn about construction. They will talk about all of the different areas and the many steps that go into the construction of something, beginning with blueprints. The children will have the opportunity to partake in a week-long project. The children will be put into smaller groups, and these groups will work together to build their own houses.

June will definitely be an exciting month for all of us!
