

WELCOME TO THE SYMPOSIUM: FORWARD THINKING ON ANTIMICROBIAL RESISTANCE (AMR)

Working together in the fight against AMR

Canadian perspectives on AMR: Where we are now and looking ahead

In collaboration with Emerging and Pandemic Infections Consortium

Wednesday, November 23rd, 2022

Time: 8:30 am – 5:00 pm EST

Ballroom B & C

Morning

8:30 - 9:00	Breakfast & Networking
9:00 - 9:30	Welcome - bioMérieux
9:30 - 10:00	Gaps in our understanding of AMR - How research can help - Dr. Susan Poutanen
10:00 - 10:30	One Health and AMR - Dr. Jane Parmley
10:30 - 11:00	A pandemic within a pandemic: antibiotic resistance and COVID-19 - Dr. Bradley Langford
11:00 - 11:15	Break
11:15 - 12:15	Best Practice sharing Case studies of stewardship in action - Moderator: Dr. Tony Mazzulli Panelists: Melissa Kucey; Dr. Jeya Nadarajah; Dr. Paul Bonnar; Stefanie Lam
12:15 - 13 :15	Plenary Lecture- Why we need a One Health approach to stewardship - Dr. John Conly

Afternoon

13:15 - 13:45	Promoting behavioral change: adapting stewardship approaches based on behavioral models - Dr. Cora Constantinescu
13:45 - 14:15	Antimicrobial stewardship for primary care - Dr. Kevin Schwartz
14:15 - 14:45	Research advances in the antimicrobial pipeline: novel phage-based therapeutics - Dr. Karen Maxwell
14:45 - 15:00	Break
15:00 - 15:30	CRISPR-based point-of-care diagnostics for monitoring resistance - Dr. Nikki Weckman
15:30 - 16:00	New antimicrobial pipeline: what's in development and what's needed - Dr. George Zhanel
16:00 - 17:00	A call to action: setting research priorities to address knowledge gaps in AMR/AMS - Moderator: Dr. Rob Kozak Panelists: Dr. Kevin Schwartz; Dr. Karen Maxwell; Dr. Nikki Weckman
17:00	Departures
