ABOUT

I am a 22 year old Graphic Design and Advertising Major at Grand Canyon University, originally from and currently residing in Lake Forest, California. I am a passionate and hardworking individual who has always had a knack for creating and designing my whole life. I am profficient in a wide range of Adobe products, and I enjoy watching new projects come alive from start to finish. I have loved every minute of being a graphic designer, and I can't wait to learn more in the field and take on my next chapter in the graphic design industry.

EXPERIENCE

Graphic Design (2019-PRESENT)

I am sufficient in most Adobe products, specializing in Photoshop and Illustrator. I have created a broad range of projects over the last 4 years, ranging from In-house, packaging, rebranding campaigns, to logo designs, and tradeshow booths. I designed album covers for a local worship band, made advertisements and merchandise for spotify artist Cam Jones, and many more.

Marko Fusion Cuisine (2020-PRESENT)

At Marko Fusion Cuisine, I have done everything from food preparation, decoration/setting up events, food service, pickup/delivery, dishes, and more. We have served up to 600 people at certain events with limited staff, so I have always had to maintain a strong composure and ensure that every customer and employee's needs are always met. I gained valuable life and work skills, such as problem-solving skills, overcoming stressful situations, and serving large groups of people at once.

Ralph's (2018-2021)

At Ralph's, I was a grocery store clerk and bagger, eventually promoted to the head of the produce department. At this establishment I learned to always put the customer first, and do everything you can to make their shopping experience more enjoyable, even if it means going the extra mile. Here, I gained valuable life and work skills, such as leadership skills, people skills, hardwork, and punctuality.
