Video editing is my passion. It has been the focal point of my life for 10 years now. With the digital design training received through my degree and the hands-on experience of projects such as vlogs, music videos, and livestreams I have gained the knowledge and skills needed for a career in linear editing. My familiarity with Premiere Pro, Photoshop, and After Effects have been key in producing the work that I've been most proud of. To explore a career that will allow me to showcase these skills, is exciting, to say the least.

Experience

- Linear editing of video/audio projects: music videos, vlogs, social media uploads
- Motion graphics/ tracking and masking
- Green screen
- 2D & 3D Animation

Software/Programs

- Premiere Pro
- Photoshop
- After Effects
- Illustrator
- Maya
- Audition

Education

Bachelor of Arts

Digital Design / Grand Canyon University, Phoenix, AZ

Four courses remaining to complete a Bachelor of Arts degree in Digital Design

Employment

AUGUST 2018 – APRIL 2019

Crew Member/Cashier / Lombardo's Gelato, Phoenix, Az

I worked in an Italian gelato shop at the Metrocenter Mall. I worked the cash register, washed dishes, served customers, took inventory, balanced end of shift cash drawer, etc.

MARCH 2016 – JULY 2018

Food Service-Dishwasher / Immanuel Baptist, Highland, CA

I worked as a server for the majority of this job. I waited tables, washed dishes, took inventory, cooked etc.

Personal Info

Many of my personal pastimes have also helped to strengthen my digital design skillset. I have spent several years as an independent content creator across platforms such as Twitch and You Tube. These interests have provided invaluable experience in production areas such as transitions, green screen editing, text overlays, color correction, livestreaming, etc. I am particularly proficient at working with large project files to pull the information needed to create concise and relevant products
