

Vision Refined

WE ARE DIFFERENT IN A GOOD WAY

20/20 for more than 25 years has been one of Canada's leading companies exclusively supplying independent optical retailers both with premium products and business solutions.

Each client has unique needs, that we are happy to support. This being an individual process, 20/20 as a team incorporates experience, energy and innovation in order to ensure that our solutions will benefit all clients and business partners.

Our purpose is to allow customers to create increased and more sustainable profits by providing innovative products and reliable services at all times.

We believe your experience should be profitable and rewarding.

Lisa Begg,
Managing Director

EYEGLASS CLEANING SUPPLIES

Lens Cleaning Cloths
Microfiber Gloves & Eye-Patch
Lens Cleaners
Wipes & Anti-Fog
Combination Kits

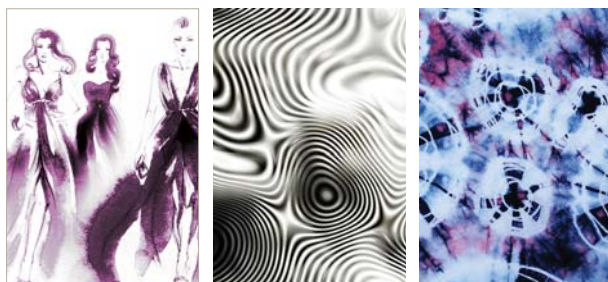

★ ULTRA - SOLID

High-tech lens cleaning cloth composed of 70% polyester, 30% nylon and knit with ultra fine micro fibers using the most advanced technology. This cloth cleans all types of lenses and coatings, with or without a liquid cleaner. To rejuvenate the ultra cloth, just wash it in warm water with detergent, rinse and air dry. Available in 10x15 cm & 15x18 cm, rounded edges or 10x18 cm, zig zag edges.

Light Grey	Bottle Green	Wine	Gold	Red*
Royal Blue	Navy Blue	Pink	Orange	Light Blue*
Khaki	Black	Green	Violet	

* Only available in 15x18 cm rounded and 10x18 cm Zig Zag

ULTRA - FASHION

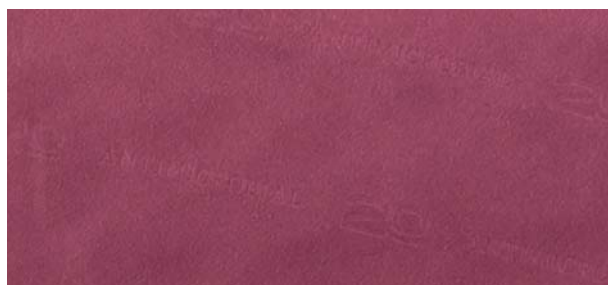

Same features as the Ultra-Solid cloth, with bold new digitally printed patterns. Available in 10x15 cm & 15x18 cm, rounded edges.

Fashion Woman:	Optic Illusion:	Tie Dye:
Dark Purple	Coral	Blue Raspberry
Navy Blue	Teal	Red Raspberry
Black	Black	Grey

ULTRA - INSPIRATIONAL

Same features as the Ultra-Solid cloth, with inspirational messages. Available in 15x18 cm, rounded edges or 10x18 cm, zig zag edges. 15x18 cm rounded option comes in a clear resale pouch.

★ ANTIMICROBIAL

Our most advanced lens cleaning cloth with antimicrobial technology built-in during the manufacturing process and lasting for up to 30 wash cycles. Highly advanced protection prevents bacteria and microbe build up without any special cleaning solutions. Fights the transfer of contaminants from surface to skin. Available in 15x18 cm, zigzag edges.

Plum	Olive	Orange	Violet	Red
Maroon	Black	Green	Light Blue	White

GK SHAMMY

Composed of a shammy material (70% polyester, 30% polyamide) this cloth has excellent absorbency for streak free cleaning. Available in 15x18 cm or 30x30 cm (grey only), rounded edges.

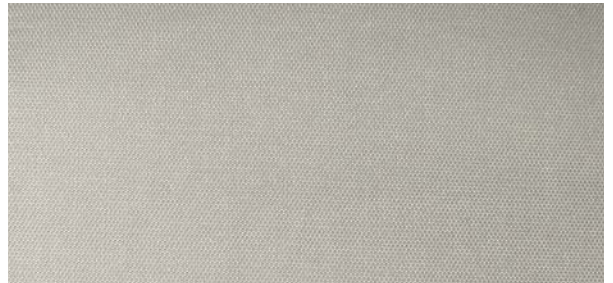

**CUSTOM
PRINTING
AVAILABLE ON ALL
CLEANING CLOTHS**
Minimum quantities
of 100 per color

GK WEAVE

Economical option for high volume and basic eyeglass cleaning needs. Available in 15x15 cm, zig zag edges.

★ MIKRŌ DIGITAL - EYE OF THE STORM

Using the same material as the Ultra cloth, this unique digitally printed cloth can be custom branded to your specifications on the reverse side. Available in 15x15 cm.

MIKRŌ DIGITAL - CUSTOM ARTWORK

Using the same material as the Ultra cloth, with the option for full customization in a digital print. Available in 15x15 cm. Send us your artwork.

★ ULTRA - SOLID, BOX-25

An assortment of some of our most popular colors in the Ultra cloth. Individually packaged in a black pouch for retail, or as a custom branded promotional item. Available in 15x18 cm, rounded edges.

ULTRA - PATTERN, BOX-25, BLACK OR CLEAR POUCH

An assortment of fun patterns in the Ultra cloth. Individually packaged in a black or clear pouch for retail, or as a custom branded promotional item. Available in 15x18 cm, rounded edges.

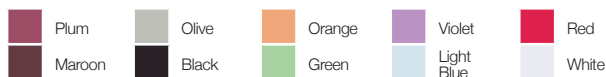

★ ULTRA - JUMBO

The largest size of our Ultra cloth. Perfect for use in the lab or as a unique retail item. Available in 30x30 cm.

ANTIMICROBIAL - JUMBO

The largest size of our Antimicrobial cloth. Perfect for use in the lab or as a unique retail item. Available in 28x30 cm.

EYE-PATCH MOBILE

Size 1" x 1"

Perception®

20/20 is proud to be the exclusive Canadian distributor of Perception® mirrored clip-ons from Shade Control®. The clip-ons are available with a copper driving lens and a bronze frame in our most popular shapes and sizes. Perception® clip-ons are available in a 20 piece fitting kit for easy storage and organization. Ask how you can become a Perception® mirror lens clip-on dealer.

SELECTING A SIZE:

- Use the size guide provided on following pages. All outlines are actual size for accurate sizing.
- Lay your glasses face down onto the outlines of the clip-on sunglasses and select whichever size is the closest match.

HOW THE CLIP-ONS ATTACH TO YOUR GLASSES:

- This type of clip-on sunglass is held in place by the tension from the spring-bridge and four small, plastic coated clips, two on either side of each lens.
- The clips will fit over glasses with metal, plastic, or rimless frames with lenses up to 5 mm thick at the edges.

The first Rx-able safety sports frame that passes all three international safety standards: ASTM F803 (USA), EN166 (Europe) and JIS T8147 (Japan). All Progear® products include a case and microfiber cleaning cloth with a one year warranty against manufacturer's defects.

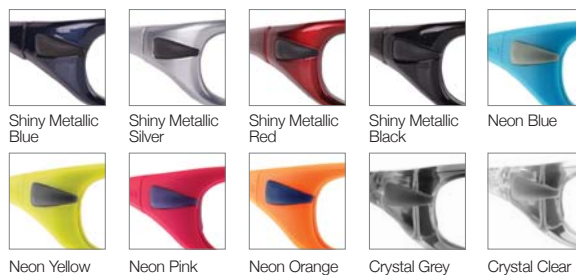

FEATURES AND BENEFITS

- V-shaped groove (1.6 mm high towards the inside) for lens safety in the event of impact
- Solid polycarbonate frame for increased impact protection
- Hypo-allergenic, expanded thermoplastic rubber (TPR) nose pad for additional protection
- Removable and adjustable neoprene band with washable Velcro fastener
- Anti-slip TPR temple pad
- Rimlock barrel and screws made of high quality stainless steel to prevent corrosion with a built-in lockable spacer make Rx glazing easy
- Detachable front shock damper and inner safety side-cushion to absorb impacts
- High viscosity polycarbonate lens with 3 mm center thickness, Plano Anti-fog, scratch-resistant hard coating and UV protection

Progear® Eyeguards meet or exceed ASTM F803-03 impact resistance for several sports. Also meets EN-166 (Europe) and JIS T8147.5.1d (Japan) safety standards.

★ SWIM GOGGLE HSV-1302

Large cup size

Smoke Indigo Violet

Recognized by pro and elite triathletes and competitive swimmers for their precise optics, comfort and safety, Sable Swim Goggles are the best choice for the individual professional athlete or for recreational swimmers.

Sable Swim Goggles are available in prescription (advanced, thin-lens aspheric technology for prescriptions **-1.50 to -10.00**.) and non-prescription styles. Flat Lens technology offers spectacular sighting in open water with an Anti-Fog guarantee.

FEATURES AND BENEFITS

- Unchanged vision above or underwater. Contact surface with water is absolutely flat. Non-distortion, high precision lenses. Refraction minimized to within 0.125 D.
- Conforms to pupil distance of most near-sighted people. Oval lens. Focal point is offset 4 mm to give a wider field of view. Small, medium or large size bridge available. Small fits PD 61 mm, medium fits 64 mm, large fits 67 mm. 3 mm tolerance creates effective PD range of 58 mm to 70 mm.
- One-touch buckle design. Goggle can be removed without hair tangling.
- 100% silicone gasket and head strap are non-toxic, and non-allergenic. Flexibility of parts extends product life and silicone material provides a superior seal.
- Polycarbonate optical lens is virtually unbreakable with a high gloss, hard coating with UV protection.

PROTEKT™ APACHE

Croakies®

It began with a simple idea. A local ski patrolman from Jackson Hole, Wyoming realized the need for an eyewear retainer that would grip his shades and secure them tight to his body while performing all aspects of his job. Grabbing some old neoprene from a kayak spray skirt and a pair of scissors, he constructed what was then recognized as the first Croakies®.

Throughout the years, Croakies has remained a small company with a big heart. Croakies values innovation and creativity, yet the goal has remained the same - strive to create eyewear retainers and accessories that provide comfort, durability and functionality for active people of all ages. Only the highest quality materials available are used and 90 percent of Croakies revenue comes from products that are proudly made in the USA.

RIMLESS ADJUSTING PLIER

★ **NYLON ADJUSTING PLIER ROUND / SQUARE**

Nylon pad jaw is 8 mm. Round nose tip diameter 2 mm. Used on semi-rimless cord suspension.

Round or Square Jaw

★ **NARROW DOUBLE NYLON PLIER**

Metal and plastic frames are held firmly without marring or marking. 5 mm wide, ideal for tight spots. Replaceable jaws.

DOUBLE NYLON PLIER

10 mm wide jaws.

LONG NOSE PLIER

All purpose plier for holding and shaping. Smooth jaw and radius-tapered edges.

★ **SLIMLINE NOSE PAD ADJUSTING PLIER**

Designed so that the hollow side of plier fits around pad receiver on the opposite side of plier. Holds the pad and arm firmly.

PAD ADJUSTING PLIER

Designed so that hollow side of plier fits around pad receiver on the opposite side of plier. Holds the pad and arm firmly.

CARBIDE END CUTTING PLIER, DOUBLE LAP HINGE

Blades angled at 10 degrees. Length of blades 19 mm for general cutting and to reach in difficult areas with better visibility. Carbide blades designed to effectively cut stainless steel and other hard metals up to 2.1 mm diameter. Dual leaf spring handles.

★ **MINI CARBIDE END CUTTING PLIERS**

Double jointed for extra leverage and strength. Carbide blades designed to effectively cut stainless steel and other hard metals up to 2.1 mm diameter. Dual leaf spring handles.

SIDE CUTTER

Durability, strength and power. Carbide blades designed to effectively cut stainless steel or hard metal up to 2.1 mm diameter. Dual leaf-spring handles.

1 YEAR WARRANTY
on all Value tools
2 YEAR WARRANTY
on all European tools
for manufacturer defects

RIMLESS DISASSEMBLY

For use with silhouette style mountings.

RIMLESS MOUNTING

For use with silhouette style mountings.

THREE POINT PLIER

RIMLESS CUTTING

Suitable for rimless screws. Allows user to cut screws close to lens surface without scratching. Dual leaf spring handles.

EYEWIRE SIZING PLIER

Tips are tapered to very fine points and are offset to the side and front of plier jaw. Will access to all types of eye wire hinge barrels.

RIMLESS MOUNTING HOOK REPLACEMENTS

Replacement hooks for use with mounting hook. 3pcs

★ MAGNETIC TOOL BAR, 18"

Double bar magnetic holder. Holds metal tools firmly, yet releases without effort.

DISTOMETER

Measures the distance between the cornea and spectacle or trial lenses (vertex distance). This becomes especially sensitive above plus or minus five diopters.

LENS CLOCK

Measures base curve for 1.49 or 1.6 index lenses.

LENS THICKNESS CALIPER

Very precise. Measures lens thickness up to 10 mm with an accuracy of 0.01 mm.

LENS CALIPER

Gives accurate readings for all lens blanks up to 15 mm. Graduated in 1/10 mm with nylon tips. Throat depth 43 mm.

SALT PAN WARMER

Adjustable temperature control, indicator light, 4' grounded power cord and rubber feet. Max temperature 400°F. 6-1/2"(w) x 4-1/4"(h) x 10-5/8"(l).

GLASS BEADS FOR SALT PAN

Available in regular & large sizes.

★ ULTRASONIC CLEANER, 1000ml

HOT AIR WARMER

Quiet & compact with 6 amps. Reduces danger of burning or drying out frames. Generates both warm and cool air.

★ **FRAME WARMER VUP**

- ~ 120°C with closed lid
- ~ 150 °C with hot air concentrator inserted.
- Cut-out switch for overheat protection.
- Metal housing.
- 350 W (+5%/-10%).
- 3 Year Warranty

★ **FRAME WARMER FUP PLUS**

- ~ 150°C with closed lid
- ~ 190 °C with hot air concentrator inserted
- ~ 190 °C with concentrator extension inserted.
- Cut-out switch for overheat protection.
- Electronic heating regulator.
- Cold air option.
- Aluminium housing.
- 350 W (+5%/-10%).
- 3 Year Warranty

★ **HYGIENE BOX**

Uses a UV-C lamp with high germicide power to destroy bacteria, germs, spores, molds and other micro-organisms from the surface of frames in just a few seconds.

- 3 Year Warranty

★ **TENSIOMETER**

Tension is applied when mounting a lens. If wrongly applied, such stress can cause distortion and, in glass lenses, chips. Any excessive tensioning on fitted lenses, identified by the tensiometer, should be eliminated.

- 3 Year Warranty

★ **PD METER**

Digital PD meter with a high level of precision. Displays left and right eye measurements with a range from 22.5 mm to 41mm. Near, intermediate and far viewing distance. Measures vertex distance.

Screw it in, snap it off, frame repairs in a snap. Snap-it™ stainless steel screws with thread lock have a unique, extra-long feeder tab that makes handling screws a cinch. After a screw is inserted into a hinge or eyewire, the long feeder tab simply snaps off. The screw is left with a smooth finish to eliminate clipping and filing.

TIPS FOR A SUCCESSFUL DISPENSARY

Use subtle display systems that showcase the product, not the system.

Never devalue your products by displaying them on low-quality systems.

Use efficient lighting that will draw attention of passers-by and entice them inside.

Create a lighting angle that effectively showcases your frames.

Energize your presentation with lit posters and graphic design elements.

Keep your space neat and uncluttered. Avoid using too many displays as this will only make it look disorganized.

The patented FixX™ Display System utilizes stainless steel and anodized aluminum components to create an updated and contemporary dispensary look. Frames are held by the patented Eyeglass Support Pod (ESP) which allows frames to be displayed in several different ways. This flexibility combined with various mounting options allow a dispensary to be re-created and refreshed at no additional cost.

Choose your mounts - available in two lengths 2" or 7"

316 Marine grade stainless steel rods for exceptional strength and durability allow two different mounting methods, wall or counter/valance mount. Twelve grey display pods come with each display rod.

Typically, frame rods are anchored by two mounting points. Our wall mounts allow the rods to be mounted dually or by one center point. Mounting by one center point gives great flexibility in varying rod placement.

WALL MOUNT, 2"

Anodized aluminum finish.

WALL MOUNT, 7"

Anodized aluminum finish.

COUNTER / VALANCE MOUNT, 2"

DESIGN YOUR
ACCESSORY
DISPLAY

With the FIXX™ Eyewear Support Pod (ESP) System, you have the flexibility to display your frames in three different ways; by the bridge with temples open, by the bridge with the temples closed or by the temples themselves. The ESP's are completely modular so you can have your frames facing straight ahead or slightly twisted to one side. You can also increase and decrease the spacing between your frames on the rods.

The ESP's are removable, so once a frame is sold, its pod can be removed so there is no misconception of theft. You also have the choice of how many frames you wish to display from season to season, without having open gaps in your dispensary.

DISPLAY PEDESTALS

Rod lengths:
2PC - 6", 3PC - 9", 4PC - 12", 5PC - 15"

DISPLAYS | MIRRORS

Add style to your dispensary with our beveled counter and wall-mount mirrors with a polished chrome finish. Counter mirrors feature weighted and padded bases for extra stability, while the wall-mount mirrors come equipped with a tilting rod to keep fingerprints off the glass. Choose from a traditional oval shape or an inverted trapezoid shape which is perfect to frame a face for eyeglass dispensing.

PROMOTIONAL

Eye-Patch
Accessories

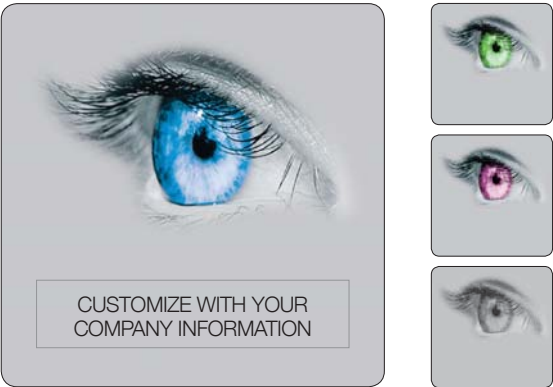

The Eye-Patch mobile and Eye-Patch tablet are customizable microfiber cleaners, excellent for advertising your business and cleaning the screen of any mobile device - tablets, cell phones, e-readers and the list goes on. Delivered to you in as little as two business days*. Give away this marketing tool to everyone who walks through the door. The more you give, the more exposure you will receive. Just like a tweet, the Eye-Patch Mobile and Eye-Patch tablet will give you more exposure than a newspaper ad at a fraction of the price.

*Pertains to Eye-Patch tablet and upon approval of artwork.
