

# AMR Symposium 2023

## Putting Evidence into Practice in the Fight Against AMR

November 22 and 23, 2023 - MaRS, Toronto

### PRELIMINARY AGENDA

#### DAY 1 - THE EVIDENCE AND ONE HEALTH PERSPECTIVE

##### Welcome and opening remarks

**One-Health Perspectives on the Action Plan** AMMI Canada-Accredited Session  
(in collaboration with EPIC and AMR – One Health Consortium)

- AMR Burden in Canada and the Pan-Canadian Action Plan on AMR – a response to calls to action from industry, academia and other partners across One Health sectors.
- Discussions of each pillar (surveillance, stewardship, infection prevention and control, leadership, research and innovation) in the Pan-Canadian Action plan from a multi-disciplinary perspective with the aim to formulate a One Health Response. Panels will discuss real-world experiences of how to approach the call to action for each pillar.

##### Poster and Networking session

(led by EPIC and AMR – One Health Consortium)

- Discussion and social networking opportunity to discuss top student research focused on AMR. Posters submitted by invite only.

#### DAY 2 – TAKING ACTION AND CHANGING PRACTICE

##### Opening Remarks

##### Implementation across settings

- Speakers and panel discussion to share real-world experience of implementing evidence across settings and insights into challenges of taking a One Health approach.

##### Looking to the Future and Defining Key Performance Indicators

- Speakers will speak to innovations to address AMR in the future, including solutions in diagnostics, bioinformatics, and artificial intelligence.
- Panel discussions on how to empower AMR stakeholders to spread public awareness and promote policy change through learnings from patients, advocacy groups, and economic analyses.
- Panels to define key measures the monitor success of the national action plan based on learnings from the AMR symposium.
