

Mixed-Age Group Acknowledgement Form

Bright Horizons Jeannette Cathy Children's Center

Thank you for choosing our licensed center as your child's educational partner. As part of our commitment to providing the best possible learning experience, we adhere to certain best practices. One of these involves informing our families about mixed-age groupings. At some point in the school year, your child may be in class with children who are either 1 year older or 1 year younger. For example, if a child in our Early Preschool program turns 3, they may remain in the same class with their 2-year-old peers.

We believe that mixed-age groupings have many benefits for children. They allow children the opportunity to interact with and learn from children of different ages. They also foster a sense of community and promote social and emotional development. Please be assured the curriculum will be adjusted to ensure that the activities remain developmentally appropriate for all children as they age in the classroom.

Please sign below to acknowledge that you have been informed about mixed-age groupings at the Jeannette Cathy Children's Center. You may contact your Center Director, with any questions.
