FUNCTION WARRANTY THREE TO SIX YEARS

More than design, quality, and performance, we offer peace of mind. All products in the Strands Lighting Division range are covered by a unique function warranty, valid for 3 to 6 years. The warranty is unique on the market and covers faults related to manufacturing, materials, and assembly. Our goal is to improve service, increase customer satisfaction, and emphasize our brand's quality.

TRUCK TOUR

Meeting different drivers and seeing all the passion that goes into creating each unique truck is a huge inspiration and pure joy. Every fair means an opportunity to see the multitude of ways you use Strands' products. If you're curious about some of the trucks and drivers we've met during different fairs over the years, take a look at the Truck Tour playlist. In each episode, we get to listen to a driver guiding us through the look and products of their truck.

STRANDS LIGHT TEST LAB

At Strands HQ, we have an advanced lighting laboratory where we test all our products before releasing them to the market. We measure output, beam pattern, and performance so you can be sure your new light lives up to your expectations. When you see the graphic illustration of the output in our catalogs, it accurately reflects how the light performs in real life.

SKYLORD

LED BAR

Part No. 902000-902003

- ✓ BUILT-IN RELAY
- ✓ PLUG-AND-PLAY
- ✓ 1 LUX @ 1 KM
- ✓ 30 000 LUMEN

5-YEARS WARRANTY

This is the next generation of LED bars, with an output tailored to provide a new kind of lighting experience. The housing is cast in one piece, securing it against water, corrosion, vibrations, and dirt. Since the housing has no screw holes, it offers superior protection against wear and tear. It's waterproof, IP-rated IP69K, and has a new type of coating. It features double breathers and a solid build, making it especially suited to heavier vehicles. It's covered by Strands' unique 5-year warranty.

NO SCREW HOLES

AMBER AND WHITE
POSITION LIGHT

LED BAR

ONE LED BAR, 2X20 REFERENCE NUMBER

By combining clever design and innovative technology, we have integrated a dual light source into a single LED bar. This means that in the E-approved E-mode (R148/149), the 20"-40" Skylords have a reference number of 2x20. The 10" version has reference number 20. In many European countries, a dual light source is a requirement for road-legal lighting. This solution allows the Skylord LED bar to deliver more actual lumens while remaining approved in E-mode.

LED BAR 10"
Part No. 902000

LED BAR 20"
Part No. 902001

LED BAR 30"
Part No. 902002

LED BAR 40"
Part No. 902003

E-MODE 1 lx
281m - 781m

XPERIENCE MODE 1 lx
517m - 1090m

Use the QR code to check out the products.

1 LUX @ 1 KM

The new beam pattern provides maximum visibility to both the front and sides. It reaches further than the average combo beam and is broader and stronger closer to the vehicle than ordinary long-distance beams. All Skylord LED bars can be used with the E-approved E-mode or with Xperience mode. The Xperience mode is a powerful boost mode that reaches over 30,000 actual lumens and 1 lux @ 1 km for the 40" model.

HELLO FUNCTION

All Siberia LED bars over 20" have the eye-catching Hello function for the position lights. Just flash your high beam twice within two seconds, and the position lights activate their dynamic Hello to greet your fellow drivers.

CABLE HARNESS WITH SWITCH

PLUG-N-PLAY

The Skylord LED bar is delivered with an XBB cable harness, enabling a smooth plug-and-play connection between the LED bar and XBB interface. The signal cable is already integrated into Output 1, and the position light into Output 2, ensuring fast and accurate setup. It features a pre-mounted switch for the position lights, located in the engine compartment, allowing you to easily switch them on or off with a simple press.

STRANDS PRO

CABLE HARNESS

- ✓ BUILT FOR PERFORMANCE
- ✓ MADE FOR STRANDS LIGHTS
- ✓ 3-YEAR WARRANTY

STRANDS PRO DT-4 PIN TO 2X DT-4 PLUG SPLIT Part No. 907001

Use the QR code to check out the product.

DT-SPLITTER

This cable has a DT-4 pin that splits into 2 DT-4 plugs. Input max is 150W, and split max consumption is 75W per plug.

STRANDS PRO XBB POWERUNIT

The Strands Pro wiring harness enables quick connection of your lighting to XBB with plug-and-play functionality. The signal is integrated into Output 1, while the position light is connected through Output 2, providing a fast and precise installation. Designed for LED bars with a built-in relay or loads up to 15 A / 180 W, the harness includes a pre-installed switch for the position lights, mounted in the engine compartment for easy change/on/off control. The cable measures 700 mm and is delivered with three DuraSeal heat-shrink sleeves.

STRANDS GEAR

A COLLECTION OF PASSION

SHOW YOUR PASSION

Strands gear is a collection made for life around the vehicle, connecting drivers who value function, design, and are driven by passion. Built for daily use, it combines premium fabrics, durable construction, and long-lasting finishes that hold their shape, color, and comfort over time. From caps and t-shirts to hoodies, hi-vis gear, fleece layers, shoes, and sunglasses, each piece is designed with the same attention to detail and reliability as our lighting—ready for the workshop, the road, and everything in between.

NUUK D-LINE

DRIVING LIGHT 9"

Part No. 901021

- ✓ LONGER AND BROADER OUTPUT
- ✓ DARK INTEGRATED POSITION LIGHT
- ✓ 1 LUX @ +800 METERS

13 400 ACTUAL
LUMENS

AMBER AND WHITE
POSITION LIGHT

1 LUX @ +800 METERS

The Nuuk D-Line driving light has a new beam pattern. Thanks to the light's unique construction, the output is fuller, longer, and broader than that of the average combo or long-distance beam. With 13,400 actual lumens and 1 lux @ +800 meters in Xperience mode, you can be sure to spot any obstacles from far away. Other lights with this kind of range often have a reduced width and power closer to the vehicle, but the Nuuk D-Line does not, making it easier to spot wildlife and other dangers to the side of the road.

Use the QR code to
check out the product.

NEW DUAL-COLOR POSITION LIGHT

The position light diodes are built into the reflector, dark and invisible when not in use, and emit a deep, vibrant color when on. The reflector produces a mirror-like effect on the position lights, giving a smooth, lively impression.

MADE FOR DURABILITY

From the inner components and material to the finish of the coating, the D-Line driving light is designed to withstand harsh weather and exposure to the elements. It is IP-rated IP69K, giving it supreme protection against dirt and water. The coating is made to withstand the rigors of the road, with salt, ice, dirt, and temperature changes.

FOUR SIMPLE STEPS TO FIND YOUR MODEL-ADAPTED SOLUTION

WEBSITE

Go to strandseurope.com

The screenshot shows the strands website interface. At the top, there are navigation links for 'LATEST', 'PRODUCTS', 'LED BARS', 'DRIVING LIGHTS', 'WORK LIGHTS', 'WARNING LIGHTS', and 'MODEL-ADAPTED'. A search bar is prominently displayed. Below the navigation, there is a large image of a truck with a 'STRANDS' license plate. The main content area features a section titled 'OUR PRODUCTS' with a descriptive paragraph: 'We at Strands offer vehicle lighting of the highest quality that always comes with at least a three-year function warranty. We always strive for high-quality products and we quality-assure each product to ensure that they meet our high standards.' Below this, there is a grid of four LED bar products, each with its SKU, name, length, and price. A 'DISCOVER MORE NEWS' button is located at the bottom of the grid.

SKU	Product Name	Length	Price (RRP)
809454	NUUK D-LINE LED BAR	40"	€380 (excl. tax)
809453	NUUK D-LINE LED BAR	30"	€300 (excl. tax)
809452	NUUK D-LINE LED BAR	20"	€230 (excl. tax)
809451	NUUK D-LINE LED BAR	10"	€159 (excl. tax)
