

30 THINGS

THAT CAN AFFECT YOUR RATE

Did you know there are about 30 factors that drive a mortgage interest rate?

Each of these factors add or subtract a fraction of the final rate a borrower is eligible for. It's called risk-based pricing and every lender and bank uses this same model to determine your final interest rate.

What you may not know is that no rate quote is complete until all of these factors have been evaluated, and that it's near impossible to do without the borrower completing a loan application and providing all the required documentation.

TAKE A LOOK AT THE LIST

If you would like more information on how these factors affect your rate, **please give us a call!**

1. **Loan Amount** (>\$180K, <\$484,350)
