

# How We Make Our Classrooms Safe

Our center is endorsed by the Eco-Healthy Child Care® (EHCC) Program

*At **Bright Horizons**® we understand the importance of a safe and healthy classroom environment. That's why we partner with Eco-Healthy Child Care® (EHCC) to eliminate or reduce environmental health hazards and ensure the safest possible space for your child to grow and thrive.*

## *At Bright Horizons we:*

Use non-toxic techniques inside and outside of our center for *Pest Prevention*.

Use fragrance-free and least-toxic *household chemicals* such as cleaning, sanitizing, and disinfecting products.

Avoid *lead* by using only cold water for drinking, cooking, and making baby formula.

Use only non-toxic *art supplies* approved by the Art and Creative Materials Institute (ACMI) labeled with the AP (Approved Product) seal.

Avoid soft pliable *plastic products and plastic toys* made out of PVC (such as dolls and teething toys) and instead only use products labeled PVC-free or phthalate-free.
