

What Our Families Are Saying

The Harbor at Station Place

The Rothman Family

Just wanted to say thank you for your time on the phone with me this week and for facilitating the Zoom call with Isaac and the Twos teachers on Wednesday. I'm so excited to see Isaac back at the center and I was SO impressed with what we've heard from the teachers at the center and during the parents' Zoom call with them on Thursday. Just seeing the teachers' faces on Zoom got me even more excited for Isaac to be back. The Center is such a special community and I'm so thankful we are a part of it!

Hope you have a great weekend, look forward to seeing you next week.

The Grant-Grewel Family

I wanted to thank you all and spotlight Center Director for a great first week back at Harbor Station for both of our children. I feel strongly that Jacqueline has put together a really special team there and it was great to have so many familiar faces back with the children who adore them. Jacqueline and her team did an incredible job with the safety protocols. As evidence of this, we had two little boys coming home telling us what they learned about washing hands and the spread of germs :)

Overall, we are just so happy to be back with our extended family at the Harbor. I was proud to tell a new family this week how phenomenal the services are and how happy we have been as clients. Thank you for the work going into making this week happen and have a wonderful weekend.

**A Bright
New Day**
