

## 1968 Ford Mustang

Starting with the exterior of the vehicle. There are multiple dings all around this vehicle with the majority being on the roof and hood. The vehicle has been repainted and the work is substandard. There are multiple spots where sanding marks can be seen and paint readings were higher than normal. Multiple spots have started to peel and chip. The door seals are weather and aged. The passenger door seal is falling off. The lights all looked okay. There was no frame damage found on the vehicle. The left rocker was bent. There is a dent on the right fender. There are multiple dings on the chrome trim. Rust is starting to come through the paint in multiple spots.

Next for the interior of the vehicle. Multiple trim panels are missing. The radio and a/c-heater system are not present but some of the ducting is. There are wires hanging down from the dash. The gauges for the vehicle work. The gear shifter did not have a knob. All of the seats have stains on them and are aged. The steering wheel wrap is falling off and extremely worn. The dash is severely worn and some spots are peeling. There are no window cranks and would have to be operated with vice grips.

Next for the wheels and tires. All of the tires have at least 7/32" which is good. All of the wheels have corrosion and scratches on them and the front right wheel has curb rash.

Next for the mechanical and test drive. There was not a test drive performed due to the condition the vehicle was in. The vehicle did start with no issue but the idle is rough. The accelerator spring for the vehicle is stretched out and partially attached to the a/c compressor. The A/C compressor does not have belts attached to it. The emergency brake was not working at the time. The only part that was noticed that was leaking is transmission fluid started to gather on the housing.

Please see below for picture and more info.

Vehicle Info	
Year - 1968	
Make - Ford	
Model - Mustang	
Mileage - 56385	
Transmission - Manual	
VIN Number - 8F01C175601	
Interior - Leather	
Interior Color - Tan	
Body Color - Green	
Engine - 8 Cylinder	
Drive Type - Rear Wheel Drive	
Fuel Type - Gas	

Exterior	
Wiper Blades	✓
Windshield Washer	✗
Windshield washer was not operable and hoses were not connected.	
Body Alignment	✓
