# Add Sections to your Google Form

Sign into your Google Suite Account

Click on the matrix
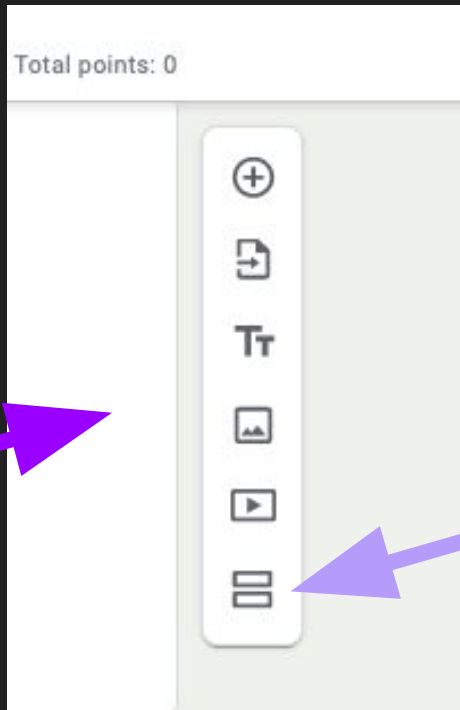

Choose a form either through Google Drive

Or Google Forms

Adding Sections to your form can be very useful. It presents information as if they were on different pages. You can also send the students to certain sections based on their answer to specific questions.

Here is an example of a Google Form with sections.

Click Here

Next to every question this toolbar will appear.
Click here to add a section.

Total points: 0

It is strongly suggested to title each section so they can be easily identified from a drop down menu.

A new section will appear.

Section Order

Title

Section Description

After section 1   Continue to next section

Section 2 of 2

Time To Practice

Calculate each sum or difference.
