

# What Our Families Are Saying

## Bright Horizons at Capital City

### The Crimaldi-Dunfee Family

My son has attended Bright Horizons since he was 18 months old and is now almost 3.5. He is a healthy, happy, independent little boy. We can directly attribute his development to the guidance and care of the wonderful staff and teachers at Bright Horizons. From day one, they made us feel comfortable leaving our child in their care. I get the sense they are concerned as much for his safety and wellbeing as we are. They provide a safe environment, healthy foods, and a multitude of enrichment opportunities. Most importantly, my son has fun! He always comes home happy and bubbling about his day and is enthusiastic to return. I would recommend Bright Horizons to any friend or family member.

### The Greenspan Family

"We are so grateful for the experience we have had with Bright Horizons at Capital City! Since day one, the Bright Horizons team has been professional, caring, and intentional in their care for our daughter. The leadership team excels at clear and consistent communication and the teachers are caring, nurturing, and engaging with our daughter. We cherish having a place where our daughter is able to thrive and come into her own. We highly recommend Bright Horizons to any family looking for care for their children!"
