

# WL 3000

A premium water dispenser combining high capacity for large offices and factories with our widest range of options. The WL 3000 is an advanced water dispenser known for purity, quality and convenience. There are water options to suit every workplace and capacity to keep all employees hydrated. UV technology guarantees purity and our carbon filtration system means the water tastes beautiful, too.

## Refreshing water starts with refreshing technology

### Three Steps to Greatness

Your Waterlogic dispenser has 3 core technologies which mean that what you get out of your machine is much better than what goes in:

**1. Filtration:** our filtration technology is really good at taking the bad stuff out and leaving the good stuff in. This stage removes chlorine and other water-borne tastes and odors.\*

**2. In-Tank UV:** next, an in-tank UV (ultra-violet) lamp purifies the water. UV light wipes out harmful bacteria such as E. Coli, Salmonella and Hepatitis to guarantee a safe, clean drink.

**3. BioCote®:** we've got the inside covered and the outside too. As another layer of defense, BioCote keeps the dispensing area free of bacteria.

\*Where applicable.

## Performance Worthy of an Encore

- Advanced machine with UV technology to eliminate bacteria
- Designed for the larger office
- High volume with Cold MAX option for those who like chilled, and lots of it
- Our widest range of water options including hot and extra hot
- Freestanding and counter-top models
- Digital display with three language setting
- UV sensor and drip tray alarm for peace of mind
- Double integral cup dispenser
- Sleep mode to save energy when nobody's drinking
- Option for drip tray drainage

## The Boring Bits

Water Options	Technical Features				
<ul style="list-style-type: none"> <li>• </li> <li>• </li> <li>• </li> <li>• </li> <li>• </li> <li>•  MAX (cold only high capacity)</li> </ul>	Type available	Freestanding Counter top			
	Freestanding dimensions	430mm (W) x 1270mm (H) x 500mm (D) 16.9in (W) x 50in (H) x 19.6in (D)			
	Counter top dimensions	430mm (W) x 460mm (H) x 500mm (D) 16.9in (W) x 18.1in (H) x 19.6in (D)			
	Dispense area height	170mm, 6.6in			
	Weight	Freestanding: 48KG Counter top: 33KG			
	Standard filtration supplied	1 x Carbon Block (CBC) and 1 x Granular Activated Carbon (GAC)
