1969 Chevrolet Chevelle

Summary

This classic shows well but does exhibit some issues of note. The exterior finish is fair with some minor imperfections noted. Small scuff at right front door. There are minor misc. scratches around the vehicle. Normal for mileage and most too small to see in photos. Clearcoat runs at lower right door & rt front rocker. The vehicle repaint shows dust under the paint, some orange peel, and signs of poor prep. This is sub-par workmanship. Signs of repaired rust at underside of package tray (see images). The underside shows areas of minor surface rust. See pictures. There is a paint chip on the left side rocker panel. The body seals around the windows are showing signs of age and wear. This includes the doors, windows, trunk, and other miscellaneous body seals. Small star crack at center of windshield. The refinishing work is decent but not show quality.

The interior looks complete but there are a few items to mention. There is light wear to the seats. Normal for mileage. The inner door panels show wear consistent with age and mileage. The interior trim shows normal wear consistent with age and mileage. The center console shows wear and tear and is being held together with zip ties. See pictures. The carpet shows normal wear consistent with age and mileage. The accessories are functional.

I found no issues on the test drive. The engine had plenty of power and there were no misfires or smoking. The transmission shifted as designed with no harsh engagement or slipping. The steering was responsive and the suspension was firm and the vehicle handled well. There were no abnormal vibrations or odd noises. The brakes were firm with no pulsation felt. There were no leaks found to the underside of the vehicle. See below and pictures for more info.
