PROFILE

Hi, my name is Cassy Vando, I like pho and I have over 25 tattoos. Creating something out of nothing has always been my passion and now I am going to make a career out of it. All good artists and designers need to be a little crazy, and I like to be an overachiever in everything I do. A lot of my designs are bold, vibrant, and playful. My goal is to be a creative director and to live my life with many mistakes. I rather take risks and push myself than regret being boring.
